Welcome

The Riihimäki Rally is one of the most traditional competitions in Finland. The history of the Riihimäki-rally extends to 1960s, when the first Riihimäki rally was run. Pauli Toivonen won the "Flying Finns" struggle before Timo Mäkinen.

The competition between today's rally stars and the "flying Finns" of the future is seen now for the first time in Riihimäki to mark the opening of the FRC summer season. Riihimäen urheiluautoilijry has been the organizer of the opening competition for the winter season of different rallies.

The competition will be fast-paced and demanding, especially in the summer. The roads of Kanta-Häme may seem easy, but practice has shown more. The note has to hit the spot and the speed must be right from the first meters on if you feel to succeed. This means special concentration and carefulness during reconnaissance. When driving on the route, it is worth noting that farmers might be working on the fields. This also means that large vehicles might be moving along the route during the reconnaissance. Timetables are designed so that there is no need for speeding. Remember to obey speed limits and good driving habits, especially in built-up area and courtyards.

With a good spirit, fair game and co-operation, we will definitely have a nice and memorable weekend with top-of-the-range domestic car racing.

Welcome to Riihimäki!

Timo Rintakoski

Clerk of the Course
