1.1 WORD FROM CLERK OF THE COURSE

Greetings from clerk of the course

Welcome to Finnish rallychampionship event, SM O.K. Auto

Last year our rally was held in February and this year it supposed to happen in June, but everyone knows what happed due Covid-19. A great weekend luckily was found in September for our rally. What makes this special is, that two seperate rallies is driven at the same time. 10 minutes of break seperates Finnish Rally Championship classes and national Autoklinikka-rally. National rally competitors take a part for the last five stages. Route this year heads towards Luumaki with lot of sections never driven, or driven 40 – 50 years ago. Rally start 10:01 and service park are located at Kouvola Hippodrome P-area nearby Mikkeli Highway. Spectators are free for access unless newer Covid -19 regulations will not make new instructions. Spectator Parking area is located at official hippodrom P-area. Super Special Stage is also free for access at Tykkimaki motorway starting 13:08. Traditional place for SM O.K. Auto rally prize giving ceremony is for sure. Finish area is located at Hotel Vaakuna at 17:28. Please note that also juniors are competing from their own finnish rally championship title.

We here at Kouvola are very proud to be organizing FRC Rally for 16th time now. This event gathers the top drivers from Finland and abroad. Our club has a bright strategy for organizing rallies for years with our passionate members.

Support from our sponsors, local coverment, City of Kouvola, our volunteers and landlords across our regions is something we can not forget. With their support this rally can be held, again. So it is our time now to say big; thank You!

I wish a safety and speedfull rally for our competitors and spectators! Please note Civid-19 instructions for safety distance and useage of hand sanitizer!
