Part 1: Sporting Regulations

1. Introduction

The Porsche Sprint Challenge NEZ Series, hereinafter called the Series, is organised in conformity with the provisions of the International Sporting Code and its appendices (the Code) and the National Sporting Regulations of the AKK. It will be run in conformity with these Sporting and Technical Regulations, the latter being in conformity with the safety prescriptions of FIA Appendix J (Article 277).

The Series will be run in accordance with the above regulations and is supervised by the NEZ Racing Commission in association with respective ASN's Racing Commissions or their representatives within the NEZ. For the avoidance of doubt, should there be any inconsistency or conflict between the individual sets of regulations, then the order of priority shall be firstly those of the International Sporting Code, then the Porsche Sprint Challenge NEZ Regulations, followed by the AKK Regulations. Matters relating to a specific competition will be included within the Supplementary Regulations for the relevant event.

The Series in 2022 consists of 12 races held at 6 events organised as circuit races. However, the Series Organiser reserves the right to invoke the provisions of articles 3.2(c) should circumstances mean it is not possible to run all 12 races.

The Series is supported by the following companies*:

- Michelin Reifenwerke AG & Co. KGaA
- ExxonMobil Oil Corporation - Mobil 1
- HUGO BOSS AG
- TAG Heuer
- Printsport
- Eurowagon
- Vauhdiin Maailma
- Viking Cargo
- Mapei
- Porsche Finland

* Subject to change

2. Organisation

2.1 Series Organiser

Porsche Racing Club Finland, hereinafter called the Series Organiser, is hosting the Series in 2022.
The permanent office address of the Series Organiser is:

Porsche Racing Club Finland r.y. / PRCF Events Oy
Rauno Ratilainen
Munkkivuodokuja 3 B 16
02160 Espoo
FINLAND

rauno.ratilainen@prcf.fi

2.2 Name of the parent ASN

AKK – Motorsport ry.
Kellokukantie 7
01300 Vantaa
Finland
www.autourheilu.fi

2.3 ASN Visa/Registration number

The Series is based on these Sporting and Technical Regulations and has been approved by the NEZ and AKK.

2.4 Organising Committee and Sporting Committee

2.4.1

The Organising Committee for the Porsche Sprint Challenge NEZ competition at each Series event (unless amended in the relevant event Supplementary Regulations) will be:

- Rauno Ratilainen, Series Manager
- Frank van Nunen, Race Director
- Juha Vane, Technical Support Delegate

Members of the Organising Committee may delegate functions and responsibilities where appropriate to other additional members of the Organising Committee where necessary.

The address of the Organising Committee is that of the Series Organiser (see article 2.1).

2.4.2

A Sporting Committee for the Series will be established comprising of the following people or their nominated representatives:

- The Series Organiser;
- The Permanent Race Director;
- The Permanent Chairman of the Stewards;
- The Series Technical Support Delegate.

The role of the Sporting Committee will be to resolve any issues arising in respect of interpretation or application of the Series Sporting and Technical Regulations and will include taking decisions on:

- Any questions concerning points or the classification of the Series;
- Any matters arising from the Series Regulations which are not specific to an individual event.

Decisions taken by the Sporting Committee shall be final and are not subject to protest or appeal.

2.5 List of Permanent Officials

(see also relevant Supplementary Regulations for each event)

Chairman of the Stewards - TBA

Race Director – Frank van Nunen

3. Regulations and legal basis of the Series

The Series is governed by the following regulations:

- FIA International Sporting Code (ISC) and its appendices
- Sporting and Technical Regulations of this Series and the NEZ and AKK approved modifications and supplements (bulletins)
- Supplementary Regulations for Series events including modifications and supplements approved by the NEZ RA Commission and AKK or the Stewards of the competition (bulletins). Where any aspect of the Sporting Regulations must be adapted for a specific event, the provisions of the Supplementary Regulations for that event will take precedence over the Sporting Regulations.
- AKK Event Regulations
- AKK Circuit Rules, except where any special regulations are set out in the rules presented here
- AKK Licence Regulation
- AKK Legal System and Code of Procedure (RuVO); FIA Judicial and Disciplinary Rules
- AKK Decisions and Provisions, AKK Environmental Guidelines, Anti-Doping Regulations of the National and International Anti-Doping Agency (NADA Code and WADA Code) as well as the Anti-Doping and Anti-Alcohol Regulations of the FIA
- The “Application for Team Entry” or the “Application for Driver Entry” signed by the Competitor/Driver
- FIA Code of Ethics and AKK Code of Ethics
- Other FIA and AKK regulations as applicable

3.1 Official language

For these regulations of the Porsche Sprint Challenge NEZ only the English text approved by the FIA/NEZ /AKK is binding, except for the relating AKK regulations specified in Art. 3 (Regulations and Legal Basis of the Series), for which only the Finnish language is binding. In case of interpretation the AKK jurisdiction is the responsible authority.

The official language of the International Sporting Code is stated within that document.

3.2 Responsibility, changes to the rules of participation and cancellation of an event

- (a) The participants (Competitors, Drivers, car owners, team members, registered keepers and team guests) attend and take part in any Series event at their own risk. They are solely responsible under civil and criminal law for any and all damage caused by them – or for damage to the cars used by them, as far as no exclusion of liability has been concluded.
- (b) The Supplementary Regulations for Series events may only be changed by the ASN of the event. Once the event starts, changes in the form of bulletins may only be made by the Stewards.
- (c) The Event Organiser and the Series Organiser reserve the right to cancel or relocate an event or individual races, subject to approval by the ASN concerned and the FIA where the calendar is affected. Claims for damages or performance shall be excluded in all such cases.

3.3 Porsche Sprint Challenge NEZ Code of Good Conduct

The Porsche Sprint Challenge NEZ is a Series characterised by equality of opportunity and fairness in both technical and sporting terms. All those involved in the Series, i.e. participants, officials and organisation, make a significant contribution to how the Series is perceived, both internally and by the general public and to the atmosphere in the Series through their conduct and their communication.

All those involved are responsible for conducting themselves in such a way as to uphold and safeguard in the long term the professionalism that prevails in the Series, as well as the esteem in which the Series and its participants are held within motorsport and by the general public. Moreover, fair and sporting competition represents an important safety aspect for all participants and is intended to minimise the risks involved.

For this reason, all those involved agree to acknowledge the philosophy of the Porsche Sprint Challenge NEZ and to comply with the rules of conduct of the Series.

- (a) Both on and off the race track, all those involved will:
- treat all participants, officials and organisers respectfully,
 - follow the laws and the rules of the sport, exemplify and promote fairness together with the rules of conduct,
 - neither express themselves or behave in an insulting, offensive or abusive way, nor tolerate such expressions or modes of conduct, either in direct conversations, interviews, etc. or in other communication, e. g. press releases, posts in social media, etc.
 - always behave in the interests of safety and permanently cooperate in efforts to reduce risks,
 - use resources in a sustainable way, giving priority to the well-being, safety and satisfaction of others before their own personal goal,
 - always comply with the purpose of the sport,
 - inform those who are involved if their conduct is not characterised by fairness, sportsmanship, respect and tolerance,
 - cooperate with all other persons involved so as to develop and improve the Series and its status further on a continuous basis.
 - respect the laws and local customs in the countries visited by the Series.
- (b) Participants who are found to have committed one or more of the following may be excluded by the Series Organiser from the Series or may be suspended or disqualified by the Stewards from taking part in one or more competitions:
- Failed to comply with the rules of good conduct;
 - Breached any of the Regulations;
 - Drawn attention to themselves through unsporting behaviour on or off the track;
 - Expressed themselves or behaved in a disrespectful way towards other participants, officials, organisers, etc.;
 - Ignored the specifications, instructions, meetings of the Series Organisation and / or other official bodies in the context of the organisation and holding of an event;
 - Ignored agreements that had been reached (including between Competitors, teams and Drivers) and did not meet obligations of performance;
 - Did not act in the interests of the sport and / or the recognisable objective of undertaking the activities seriously in accordance with the rules that have been acknowledged;
 - Brought the Series into disrepute.

Specific mandatory requirements or restrictions in respect of behaviour of participants, or specific conditions of participation, may be published by the Series Organiser in order to minimise the risks of, and maximise protection against, Covid-19 infection. These will be set out in the Porsche Sprint Challenge NEZ Covid-19 Safety Procedures document (the latest version of which will be valid and available from the Series Organiser). It is essential that these requirements are followed by all participants and any breach of these requirements would be deemed a serious infringement of the Porsche Sprint Challenge NEZ Code of Conduct. Competitors (entrants) are responsible for ensuring full compliance by every person associated with their entry at all times during every applicable event.

4. Entries

4.1 Registrations/entries, entry closing date and obligation to participate

- a) Application for entry to the Porsche Sprint Challenge NEZ must be submitted by a Competitor by downloading from the PRCF ry web page (www.porsche-racing-club-finland.fi) **Porsche Sprint Challenge NEZ CUP 2022 Registration Form**, fill and sign it. Scan the document and e-mail it to rauno.ratilainen@prcf.fi by **1st March 2022**.
The original filled document is handed over to Series Manger at the first event.
If the completed "Application for Entry" is received later than this date, it may only be considered at the sole discretion of the Series Organiser. An extension to an already accepted application of a Competitor may be considered after the closing date.
Competitor must hold a valid license issued by one of the NEZ ASN's, to score NEZ Cup points.
The Competitor will receive a written confirmation if his / her entry has been accepted
- b) Each individual "Application for Team Entry" by a Competitor must be for a minimum of 2 and maximum of 3 cars. If a team wishes to permanently enter additional cars, they must be entered under a separate Competitor's licence. Exceptions from this regulation are Guest entries for a fourth car which may be submitted under one Competitor licence for one event. The Competitor will receive a written confirmation if his entry has been accepted.
- c) A Competitor may apply for entry of a Permanent Driver or Non-Permanent Drivers for each permanently entered car. Both Permanent Drivers and Non-Permanent Drivers in permanently entered cars are eligible to score points for the Team Classification but only Permanent Drivers are eligible to score points in any Driver Classification.
- d) The official "Application for Entry" form (as supplied by the Series Organiser) for Permanent Drivers must be received by the Series Organiser as a supplement to the "Application for Team Entry" **by 15th March 2022**. The Series Organiser reserves the absolute right to accept or reject an application for a Permanent Driver that arrives after this time limit. However, if a late application is accepted the Driver will no longer be eligible to score points for the Driver Classification or the Team Classification unless the Series Organiser (at his sole discretion) accepts the delay in submission of the entry as being, exceptionally, a case of force majeure.
- e) The Series Organiser reserves the right to refuse an "Application for Team Entry" or "Application for Driver Entry" at his own discretion, stating the reason. There is no automatic entitlement to acceptance or participation in the Series.
- f) Notwithstanding acceptance of any "Application for Team Entry" and/or "Application for Driver Entry", permission to participate in any Series competition is always subject to the satisfactory completion of the scheduled licence verification procedure at the relevant event
- g) A Competitor may apply for entry of a Permanent Driver or Non-Permanent Drivers for each permanently entered car. Both Permanent Drivers and Non-Permanent Drivers in permanently entered cars are eligible to score points for the Team Classification but only Permanent Drivers are eligible to score points in any Driver Classification.
- h) Prior to making any change to the on-site set up and working appearance a Competitor must submit a written request to, and receive approval from, the Series Organiser for hospitality or entertaining structures.

All applications must be fully completed, signed (in original form) by the competitor licence holder and must be handed over to Series Manger at the first event.

4.1.1 Overall Classification

The Overall Classification is the official driver championship classification of the Series.

4.1.1 N/A

4.1.3 Junior Program

Porsche Sprint Challenge NEZ Junior Program is part of the Series official young driver's development program. The participation is voluntary and is made through the Driver registry.

To be eligible for participation in the program and to receive full support, the driver must

- be 23 years or younger when applying
- be enrolled for the full season
- take part in every event and at all races at these Events (excl. technical reason)
- participate in all events Series promoter requires
- ensure peak physical and medical condition
- cannot be a member of the Porsche Motorsport Junior Programme

Junior Program slots will be allocated on a first come first serve basis.

All Competitors and Drivers participating in this programme must agree to provide access to the Cosworth data for data analysis and evaluation as required by the Junior Programme support personnel after each session. The Series Organiser ensures that the provided data will only be used for the specified purpose and no data and / or graphical analysis will be distributed to or shared with other Drivers or teams.

All Junior Program driver/s has the opportunity to get the number of tyres as stipulated in the contract with the Series tyre supplier during the racing season. If the participant fails to take part in all Events, he will be automatically suspended from the program, and are no longer entitled to program support and the tyres delivered so far will be invoiced from the entrant.

4.1.4 N/A

4.1.5 N/A

4.1.6 Guest Drivers

- (a) The Series Organiser may permit Guest Drivers to participate in individual competitions. Guest Drivers may take part without being eligible for points for any Driver Classification on condition that they comply with the conditions of the Series Regulations and of the Supplementary Regulations for the relevant event.
- (b) Guest Drivers should apply for participation in single competitions using an "Application for Driver Entry." (as supplied by the Series Organiser). The Series Organiser reserves the right to accept or reject an "Application for Driver Entry".

Payment for individual event to PRCF Events Oy.

The Competitor will receive a written confirmation if his Guest Driver has been accepted. The Series Organiser reserves the right to refuse an "Application for Team Entry" or "Application for Driver Entry" at its own discretion, stating the reason. There is no automatic entitlement to acceptance or participation in the Series.

- (c) Guest Drivers participate with a car that is entered for only one competition and without a previously existing competition number for the entire Series. Guest Drivers may participate in a car that has been used by a previous Guest Driver with the same or different competition number.
- (d) Priority in the acceptance of entries will be given to the registered Competitors.
- (e) The Series Organiser reserves the right to enter Drivers under its own "Application for Driver Entry".
- (f) The Series Organiser also reserves the right to permit additional entries to individual competitions.
- (h) The minimum licence requirement for driver participation in the Porsche Sprint Challenge NEZ is a valid National Driver's licence for 2022 issued by an FIA-affiliated ASN.

Substitute drivers

Can apply for participation in single race events using an "Application for Driver Entry" form. Entries must be submitted to the Series Organiser as soon as possible. The Series Organiser reserves the right to accept or reject applications arriving after this time limit.

Substitute drivers may only participate with a car registered for the whole series.

Each substitute driver must be entered according to the regulations for Guest Drivers.

4.1.7 Authorisation

- (a) With the submission of the "Application for Team Entry" or "Application for Driver Entry", Competitors authorise the Series Organiser to submit entry forms on their behalf for those events which host races which form part of the Series in 2022. Direct nominations to the promoters by the participants are not permissible.
- (b) The Competitor / Driver agrees that PRCF, whose representatives constitute the Organising Committee for each Competition, has access to and authority to utilise the reports, data and documents of the Technical Scrutineers at all times.

4.1.8 N/A

4.1.9 Replacement of cars, engines or gearboxes

A Competitor may not replace a car that has already been entered and allocated a competition number, unless the car has suffered significant or irreparable damage at a preceding event or during an event. The Competitor must make written application to the Stewards seeking permission to enter a replacement car and it shall be at the sole discretion of the Stewards whether to accept or reject the application. Where the Stewards accept such an application, that acceptance may be given subject to specific conditions. Where the replacement of a car is accepted after Qualifying it will normally be on condition that the car starts the race from the back of the grid. Replacement car has to be scrutineered and fulfil sticker regulations and have a competition number.

Any change of engine and/or gearbox between events or during an event must be approved in advance by the Series Organiser in writing.

4.1.10 Commitment to participate

- (a) **Competitor obligation.** Upon registration of a Permanent Entry, a Competitor undertakes to participate with each registered car in the official test / media session (where there is one) and all competitions of the Series in 2022.
- (b) **Failure to participate.** Any Competitor or Driver who fails or anticipates failing to fulfil these participation requirements must inform the Series Organiser in writing at the earliest opportunity, stating any mitigating reasons.

4.1.11 Effectiveness of the regulations and ranking

In the event of a conflict between the entry documents and these Regulations, then the current version of these Regulations shall take precedence.

4.2. Entry fees**4.2.1 Entry fee for the season**

The registration & entry fee is

until 15th March 3,600 € (VAT 0%)*

after 15th of March 4,800 € (VAT 0%)*

Series registering will open at the PRCF net page on **2nd December 2022**.

The Series registry will be copied as an Entry for every Event.

Possible cancellation must be submitted according to the NEZ / AKK / Series regulations.

The registration & entry fee includes:

- Series entry for Sprint Challenge
- Participation fee for NEZ-series
- 1 set of stickers and competition numbers
- Series Yearbook (Finnish and international)
- Sea transport (Viking Cargo) as defined in the partnership contract
- Mobil oil benefit
- Michelin tyre support
- 1 pcs ticket for series prize gala.
- Right to use Series photos
- Series Trophies
- Services at Racetrack

4.2.2 Entry fee per event

Registration to a single Event must be done separately.

The Guest Entry fee per car is **1,200 € (VAT 0%)***

*Prices do not include the value added tax as effective by law, if applicable.

The entry fee per car includes the following services:

- Participation fee for one race car per race event
- 1 set of stickers and competition numbers

A single entry fee is to be paid directly to PRCF Events Oy / Challenge Series, that include sticker fee & entry fee.

The payment is not a confirmation of acceptance of the "Application for Team Entry".

Registering to the race to be done in advance with one identified car.

Change of a car / driver is possible up to two hours before the start of the Qualification.

The change fee is **200 €**. Registered cars / drivers can not be changed across.

A driver can take part in another racing class with the same or a different car.

The same car can also be used by another driver in another racing class.

The same car can be used by a different driver in another start, but he starts without qualification run, starts behind other drivers.

Any driver taking part after the beginning of the Series must pay the increased fee latest when submitting the registry for the Event.

Only those who have paid the entry fee are counted as started and can get points.

A driver can take part in a single Event by paying the single Event increased entry fee and the Challenge Series single Event entry fee of **300 €** (which includes stickers, competition numbers, etc.) but that will not make the driver eligible for series points. A single entry fee must be paid for every Event.

Challenge Organisation may call a VIP-driver to drive without a single entry fee but without a Series fee. He / She will not be counted as started and cannot get series points

Force majeure, labour disputes, civil disturbances, action by official bodies and other unforeseeable, unavoidable and serious occurrences, in particular restrictions and measures due to the Covid-19 pandemic, shall release the Series Organiser from his duties to perform regarding the aforementioned scope of services. In case of cancellation of services, the Series Organiser will accordingly try to compensate the cancelled services with other services or refund a reasonable part of the entry fee to the Competitor.

4.3 Competition numbers

The participants will be allocated with competition numbers by the Series Organiser for the entire season and to guest Drivers for each event. Once a competition number has been assigned to a car, the number will remain with that car for the remainder of the season and, if a change of complete car or chassis is necessary, the number (and corresponding tyre allocation) will be transferred to the new chassis.

The Series Organiser reserves the right, in exceptional circumstances, to reassign allocated competition numbers ahead of the first event.

5. Licences

5.1 Required grade of licence

a) Drivers

Drivers holding a valid National Driver's licence for 2022 issued by an FIA-affiliated ASN, who is registered for the Porsche Sprint Challenge NEZ 2022 and have paid the registration fees are eligible.

b) Competitors

Competitors wishing to register with the Series must be in possession of a valid International Competitor's licence issued by an FIA-affiliated ASN and have paid the registration fees.

d) Age regulations

No driver under 16 years old (birthday being binding) will be permitted to enter the Series.

5.2 Conditions for Competitors outside their national territory

AKK license holders and license holders by a NEZ ASN affiliated to the FIA have the right for participation and are entitled to score points for the series.

6. Insurance, liability exclusion and disclaimer

6.1 Organiser's / Promoter's insurance

The insurance company and policy number will be stated in the Supplementary Regulations for each event.

6.2 Declaration by the Competitor (entrant) and driver on the exclusion of liability, disclaimer of the car owner.

In accordance with AKK Event Regulations.

7. Events

7.1 Calendar of events

The 2022 Series consists of 12 races organised as circuit races at 6 events. At each event there will be two race. However, under exceptional circumstances should a race be cancelled or deferred then there may be more races at a subsequent event. Should a venue host more than one Series event on consecutive weekend, each race weekend will be considered a separate event. Should there be more than two race at any event, then each race will be considered a separate competition for the purposes of these regulations. It is the Competitor's responsibility to ensure there are no travel or other restrictions which would affect their participation in any event for which they have entered.

29.04 – 30.04	BATCC Dewalt Grand Prix	Bikernieki	Riga, Latvia
17.06 – 18.06	BATCC Botniaring Grand Prix	Botniaring	Jurva, Finland
30.06 – 03.07	Porsche Festival Estonia	Porschering	Pärnu, Estonia
22.07 – 23.07	Porsche Sports Cup Weekend	Kymiring	Iitti, Finland
12.08 – 13.08	BATCC Pärnu Summer Race	Porschering	Pärnu, Estonia
26.08 – 27.08	Porsche Club Festival Finland	Alastaro Circuit	Virttaa, Finland

7.2 Maximum number of cars authorised

Subject to the maximum number of permitted cars being defined in the circuit licence.

8. Classification

8.1 Awarding of points

The winner of a race is the participant who has driven the specified distance with his car within the shortest time, taking account of all penalties.

The winner of a race regarding the awarding of points is the entered participant driving an entered car on an entered competition number who has driven the scheduled distance with his car in the shortest time, taking account of all penalties.

All participants who started the race will be classified in accordance with the number of laps of the circuit covered, providing that they have completed at least 75 % of the distance covered by the winner (rounded down to the nearest whole lap). Drivers who have completed the same number of laps will be classified in the order in which they last crossed the control (timing) line.

If the race distance is shortened or stopped and cannot be resumed, the participants will be awarded the points as indicated below, providing that at the time the race is stopped the leader has covered the following distance (based on the laps completed by the winner as shown in the official race results as the basis for the Final Classification):

- If at least 50% of the scheduled number of race laps have been completed (rounded down to the nearest whole lap), 100% points will be awarded.
- If less than 50% of the scheduled number of race laps have been completed (defined as above), 50% points will be awarded.

If a race is stopped before the leader has finished two complete racing laps (and is therefore declared null and void) and cannot be restarted, or a race cannot be started at all, then 50% points will be awarded on the basis of the Qualifying Final Classification. The Stewards may disallow the points awarded to any Driver who they deem responsible for causing the stoppage of a race which is then declared null and void and cannot be restarted. If there has also been no Qualifying Classification, then no points will be awarded.

8.2 Table of points

Participants who satisfy the conditions for the awarding of points in the classification shall be allocated the following points in the order in which they are placed in each race:

1st place:	25	points
2nd place:	20	points
3rd place:	17	points
4th place:	14	points
5th place:	12	points
6th place:	10	points
7th place:	9	points
8th place:	8	points
9th place:	7	points
10th place:	6	points
11th place:	5	points
12th place:	4	points
13th place:	3	points
14th place:	2	points
15th place or below:	1	point

8.3 Driver Classification

11/12 results of the individual races count towards the final classification at the end of the year. The winner of the 2022 Series is the entered Driver with the highest total number of points in the Overall Classification from 11/12 races.

A disqualified race can not be removed from races from where points are counted.

8.4 Team Classification

The Team Classification is independent of the Driver Classification. The points of two cars entered under the same Competitor licence are added for the team ranking. Points for the Team Classification are awarded according to the official overall race result, irrespective of classification.

If there are more than two cars entered under one Competitor licence, the team must nominate two eligible team scoring Drivers for the corresponding competition in writing before the end of the administrative checks at each event of the Series. Should the Competitor fail to nominate two Drivers then the two respective Drivers with the lower two competition numbers (the lowest number being 1) will be nominated automatically for that competition by the Series Organiser. No other cars from a Competitor will be considered for the Team Classification.

8.5 N/A

8.6 Equality of points

If an equal number of points is achieved, first are compared the number of wins, if still necessary, the second positions, etc. to tenth place

8.7 Publication of points

Points and prizes classifications will be published by the Series Organiser in an official Team Information communication after the end of each event. Should an error in any classification require a correction to be made after publication, this can be done by the Series Organiser. Any questions or complaints concerning the Series classifications must be submitted in writing to the Series Organiser and be received within seven days of the first publication of the points or prizes concerned. The points and prizes classifications will be considered final seven days after the end of the last event of the season and, subject only to any ongoing judicial or sporting matters, from that time no further amendments or corrections will be made. In case of any disputes concerning point attributions, these will be decided by the Sporting Committee. Decisions of the Sporting Committee will not be subject to protest or appeal.

9. Title and trophies

9.1 Title Overall Winner

The Driver who has scored the highest number of points in the Overall Classification after 11/12 races of the 2022 Series will be awarded the title:

" Porsche Sprint Challenge North European Zone CUP - Champion 2022"

9.2 Trophies

9.2.2.4 Trophies

Trophies will be awarded by the Series Organiser at each competition to the 1st, 2nd and 3rd classified Drivers.

Trophies will also be awarded by the Series Organiser at the end of the Series to the 1st, 2nd and 3rd classified Drivers

Trophy will also be awarded by the Series Organiser at the end of the Series to the Team champion.

10. Private practice and testing

There is no restriction on private practice or testing.

11. Administration

The Competitor and Driver must ensure that all the necessary documents as set out in the organiser's rules of participation are submitted by the correct date and time for licence verification. Failure to comply with this requirement may result in disqualification from the competition. The following documents must be presented by the Driver / Competitor:

- Competitor's licence
- Driver's licence
- Medical aptitude form
- Authorisation to take part in relevant competitions abroad

The requirement for completion of administrative checks and licence verification applies to the official season test(s) and all race events.

11.1 Timetable for administrative checks

See relevant Supplementary Regulations, Team Information communication. Competitors and Drivers must comply with the timetable for administrative checks. Any failure to do so may be reported to the Stewards.

All Competitors and Drivers may be required to submit a signed declaration at each event regarding the validity of their licence and any necessary authority to participate. Where this is required, Competitors will be informed by the Series Organiser and must submit the declaration by the time specified in the Official Timetable for the event.

11.2 Drivers' briefing

The time and location of the Drivers' briefing will be published in the Supplementary Regulations of the event. All Drivers, must be present throughout the briefing.

The requirement to attend any scheduled Drivers' briefing applies to all race events. A Driver may not take part in a race event until he / she has attended the respective Drivers' briefing or, where agreed by exception, received a personal briefing from the Race Director.

The Season Briefing notes and the event specific notes and presentation material issued by the Race Director are considered formal instructions which must be complied with.

Any non-attendance or late attendance may result in a fine or other penalty being imposed by the Stewards. Any Driver operating a mobile device (phone, tablet, etc) during the briefing, other than for the purposes of the briefing, will be deemed to be absent and will be referred to the Stewards.

The Drivers' Briefing at events may be delivered by way of Powerpoint presentation with Race Director voice-over which will be made available to teams electronically, along with written briefing notes.

In this case, all Competitors and Drivers must submit, by the time specified in the Official Timetable for the event, a signed declaration that they have viewed and understood the presentation.

An opportunity will be provided for any questions to be raised with the Race Director and any such questions and answers will be made available to all Competitors and Drivers.

12. Scrutineering/technical checks

Before and, as required, during or after each competition all cars will be inspected by one or more Technical Scrutineers licenced by an FIA affiliated ASN. The names of the scrutineers will be stated in the Supplementary Regulations for the event or in a Stewards' Bulletin. They may be provided by the promoter or by the Series Organiser. Any car or part of a car can be selected at any time by the Stewards for a further technical examination, including examination outside the event venue.

The Technical Scrutineers are entitled to check any aspects of the cars in competition at any time during the event and may conduct checks without prior request from the Clerk of the Course or the Stewards

The Technical Scrutineers are responsible for the operation of the Parc Fermé and are the only persons authorised to give instructions in this respect to the Competitors.

Competitors and Drivers shall at all times follow the instructions of the Technical Scrutineers regarding the checking and re-inspection of cars.

12.1 Scrutineering before the start of a competition

At each competition, the Competitor must present his car and the Driver must present the compulsory Driver's safety equipment at Technical Scrutineering at the published times. The car must be presented in the configuration as it will be used in the competition (including competition numbers) and it is the Competitor's responsibility to ensure that the car fully complies with the applicable Technical Regulations at all times throughout the competition, commencing with initial scrutineering. The presentation of a car for scrutineering will be deemed an implicit statement of conformity.

The following car documents must be presented with the car to the Technical Scrutineers:

- Technical passport
- Certificate for rollover structure

The cars and Drivers' safety equipment are to be shown to the Technical Scrutineers for technical and visual examination during the stated inspection periods. The inspection periods are to be strictly adhered to.

Once initial technical scrutineering is completed, the cars may only leave the paddock with the permission of the Series Organiser. Any car that is permitted to leave the paddock (other than to go on track) must be presented again to the Technical Scrutineers before taking any further part in the competition. It is the Competitor's responsibility to present the car to the Technical Scrutineers.

No car may take part in a competition until it has been passed by the Technical Scrutineers.

Unless a waiver is granted by the Stewards, Competitors who do not keep to the set time limits will not be permitted to take part in a competition.

12.2 Scrutineering during an event

After qualifying and each race, the cars must be brought to the Parc Fermé area by the route described in the Drivers' Briefing. The Parc Fermé area of the Series will be identified in the Supplementary Regulations for each event or in the notes from the Drivers' Briefing. The route from the finish line to the Parc Fermé is subject to the Parc Fermé provisions. All cars must be driven by the relevant Drivers in full racing equipment to the Parc Fermé after qualifying and racing.

All cars are subject to Parc Fermé conditions until the end of the protest period and until released by the Technical Scrutineers or the Stewards. During this time, no works of any kind may be performed on the cars. Once in the designated area, no car may be removed without the permission of the Technical Scrutineer / Race Director. No individual may enter Parc Fermé without the permission of the Technical Scrutineers.

The Driver is allowed to open the rear lid for cooling. A tire pressure gauge can be passed to the driver in Parc Fermé area and the driver can check the tire pressures him / herself.

Cars that have been involved in an accident at any time during an event must be presented to the Technical Scrutineers. Any repairs identified by the Technical Scrutineers must be undertaken by the Competitor and the car represented to the Technical Scrutineers. It is the Competitor's responsibility to do so before taking part in the competition again.

The Stewards, Race Director or the Chief Medical Officer can require a Driver to have a medical examination at any time during an event.

Any car that is permitted to leave the paddock for repairs after an incident must be presented again to the Technical Scrutineers before taking any further part in the competition. It is the Competitor's responsibility to present the car to the Technical Scrutineers.

It is not permitted to drive the competition cars on public roads at any time during an event, unless specifically defined in the Drivers' Briefing.

The Stewards will publish the results for each car scrutineered. These results will not include any specific figures or data except where a car is found to be in breach of the technical regulations.

13. Running of the competitions

13.2 Official Practice

Official practice session will be scheduled for each event. The official practice session time duration may be reduced in length should it be temporarily stopped for reasons of safety or force majeure. Should an official practice session be stopped for any reason, all cars must proceed slowly back to the pit lane, without overtaking other cars.

During official practice session any Driver who, in the opinion of the Stewards, stops or slows unnecessarily on the circuit or impedes another Driver may receive a penalty. Any Driver causing an official practice session to be stopped may be referred to the Stewards and may receive a penalty.

13.3 Qualification

Every event has one 20 min duration qualification. All participants must qualify for the respective race. The starting grid is based on a qualification session. In case there are 14 or more participants, the Qualification will be run in two parts, otherwise 1 x 20 min

All cars taking part in Q1 (15 - 20 min) and the 10 fastest will continue to Q2 (10 min). Q1 will determine starting grid positions from 11 forward, in the first race start. Lap times in Q1 will be nullified and not be carried over to Q2.

All cars demoted in Q1 will remain at the pitlane and Parc Fermé conditions will be applied to those once Q2 start is announced (green light / flag at the pit exit) i.e., all work on the cars has to be stopped immediately.

Cars will be moved to Parc Fermé area (or scrutineering place) when instructed by the scrutineers.

5-minute break start once the last normally moving car from Q1 stops in the pitlane. The start of the break will be indicated by showing a 5' board at the pit exit. All 10 cars qualified to Q2 remain in pit lane waiting for Q2 start.

During the break, cars are not under Parc Fermé rules, but fuel handling is strictly prohibited.

The end of the break will be indicated by showing 3' and 1' boards. The start of Q2 will be shown by green light/flag.

Q2 will determine the grid positions 1 – 10 for the first Race of the Event. Once the chequered flag is shown after Q2 all participating cars will be under Parc Fermé regulations and have to proceed directly to Parc Fermé (or scrutineering place) without stopping at the pitlane.

If a qualifying session is suspended (red flag) and subsequently resumed then teams are permitted to work on the cars. However, if a qualifying session is stopped and not continued then all work must cease and all cars will be under Parc Fermé conditions from the point in time when it is declared that the session will not be resumed.

No Driver may start a race without having taken part in a qualifying or practice session unless authorised by the Stewards in consultation with the Race Director.

Should circumstances force the cancellation of both the official practice session and the qualification session, then the current championship positions at the beginning of the event will be used to determine the starting grid for the race and for the second race where two races are held at a competition.

Should a qualifying session be stopped for any reason, all cars must proceed slowly back to the pit lane, without overtaking any other cars.

If two or more cars set identical fastest lap times in qualifying, the classification order will be based on the order in which those times were set, with the first car to set that time taking precedence, and so on.

During any qualifying session any Driver who, in the opinion of the Stewards, stops or slows unnecessarily on the circuit or impedes another Driver may receive a penalty. Any Driver causing a qualifying session to be stopped may be referred to the Stewards and may receive a penalty.

13.4 Starting Grid

The starting grid for the race 1 will be determined by the fastest times achieved in qualifying. The starting grid for Race 2 in each Event will be according to lap times on Race 1

If one or more Drivers have not set a lap time (for reasons other than cancellation or shortening of the qualifying session) but are given permission by the Stewards to take part in the race, these Drivers will be placed at the end of the starting grid in the following order:

- a) the Drivers who have started a timed lap from the pit lane, in the order of their best time in official practice.;
- b) the Drivers who have not started a timed lap from the pit lane, in the order of their best time in official practice.

Drivers whose entire lap times were cancelled by decision of the Race Director or the Stewards must, in all cases, start the race behind the aforementioned Drivers at the end of the starting grid. Should more than one Driver have his entire times removed, their starting positions at the back of the grid will be determined by the current championship positions at the beginning of the event will be used to determine the starting grid for the race.

13.5 Starting modes

All Race starts will be rolling starts, pole position according to track layout / inside or as defined in FIA track approval documentation.

The first car will approach the starting line with constant speed (60–80 km/h), keeping the group together. The second car must keep its front wheel level with the first car's rear wheel. Behind these two cars, the remaining grid will follow in two straight queues without long gaps. The race start for all cars when the start lights change, regardless of the car's position to the starting line.

If the formation approaching the starting line is out of order, the start is void. The lights will not change to green and there will be additionally yellow lights and flags. An additional formation lap will follow with a new try.

The driver found guilty for an aborted start, will be sanctioned with a 5 second time penalty and for the second time 10 sec + warning.

13.6 Races

The 2022 Series consists of 6 Events and 12 Races organized as circuit races. The race duration is 20 minutes + 1 lap.

If a race is cancelled because of safety reasons or Force Majeure, Series Organiser reserves the right to reduce the number of races or to designate a replacement event. The Series Organiser is under no obligation to reschedule a race in its original format within an event.

13.7 Start procedure

On display of the 3-minute signal and/or audible signal, all competition cars must be standing on their wheels on the track and must not be lifted again.

On display of the 1-minute signal and/or audible signal, all personnel must clear the grid.

13.8 Aborting or suspending a race

After the signal to stop the race has been given, all cars able to do so will proceed directly but slowly to the grid or to another position on the track as directed by the Race Director.

If a race is aborted or stopped before the leading car has finished 2 complete racing laps, the following rules will apply

- The start will be deemed null and void.
- If all cars are directed to the grid, cars may be worked on only if they enter the pit lane or are already in the pit lane at the time of the red flag. Any car already in the pit lane or entering the pit lane after the red flag may start the race from the pit lane after all cars have started the race.
- If all cars are directed into the pit lane when the red flag is shown, they must line up in the outer (fast) lane. Cars may only be worked on if they go to their own pit area. Any car which goes to its own pit area will be permitted to start the race from the pit lane after all cars which remained in the outer (fast) lane have started the race.
- Retired Competitors unable to take part in the restart of the race in their original car will be classified as non-starters.
- All Drivers having taken the original start shall be eligible for the restart in their original car (subject to judicial procedures).
- The length of the restarted race will be defined by the Race Director in consultation with the Stewards.
- The grid for the restart will be the original starting grid.
- Empty starting places on the grid, caused by Drivers unable to restart or starting from the pit lane, will not be filled. Empty starting rows will be filled by moving up.
- Refuelling is prohibited.
- The Race Director may decide that the restart will take place behind the Safety Car for operational or safety reasons, in which case this may commence from the pit lane if all cars were directed there

If a Race is aborted or discontinued following will apply:

- Race aborted with a red flag and it is not restarted.
 - At least 75 % of the scheduled distance driven, full points awarded
 - Over 50 %, but below 75% of the scheduled distance driven, half points awarded
 - Only 50 % of the scheduled distance driven, no points

If a Race is stopped before the full time has been achieved and the Race is not restarted, the results will be declared based on the classification order when the leading car crossed the Timing line for the penultimate time before the race was stopped.

Refuelling is prohibited.

If all cars are directed to the grid, cars may be worked on only if they enter the pit lane or are already in the pit lane at the time of the red flag. Any car already in the pit lane or entering the pit lane after the red flag may start the race from the pit lane after all cars have started the race.

If all cars are directed into the pit lane when the red flag is shown, they must line up in the outer (fast) lane. Cars may only be worked on if they go to their own pit area. Any car which goes to its own pit area will be permitted to start the second part of the race from the pit lane after all cars which remained in the outer (fast) lane have started.

The classification of the race will be the order of finishing of the second part.

If a race is aborted or suspended after the leader has completed more than 50% of the scheduled racing laps (rounded down to the next whole lap) then, at the Race Director's sole discretion, the race may not be restarted.

If a race is stopped before either the full distance or time has been achieved and the race is not restarted, then the results will be declared on the basis of the classification order when the leading car crossed the control (timing) line for the penultimate time before the race was stopped.

Any Driver causing a race to be stopped may be reported to the Stewards and may be subject to penalty up to disqualification from the race.

13.9 Change of weather conditions**13.9.1 Wet Race- and Lights- boards**

A wet race or wet track is the race director's decision, it is announced by displaying the "wet race" or "wet track" board. Once a wet race or wet track is announced, the headlights and the rear fog light must be switched on and start the race with wet weather tyres.

If the main flag post will display "Lights"-board the drivers must switch on the headlights and rear fog light. The "Lights"-board does not influence drivers' tire choice.

If the start or re-start of the race is made behind the Safety Car due to the weather conditions then the use of wet-weather tyres is compulsory. The start or re-start may be from the pit lane if all cars were directed there.

A race will not be stopped in the event of rain unless the circuit is blocked, or the Race Director considers it unsafe to continue.

13.10 False Starts

The Race Director and/or Stewards may use any video or electronic means to assist them in reaching a decision regarding false starts. Penalty 10sec.

13.11 Safety Car

The Safety Car will be deployed under the instruction of the Race Director to neutralise a race.

The Safety Car procedure will be that firstly, waved yellow flags with stationary 'SC' boards will be displayed around the circuit. All cars must slow down immediately – overtaking is prohibited. The Safety Car will then be deployed to pick up the leader and all cars must remain no more than 5 car lengths apart. The green light at pit lane exit will remain on at all times. Any car entering the pit lane and subsequently re-joining the track whilst the Safety Car and the line of cars following it are passing the pit lane exit must merge safely into the line of cars on track in accordance with their relative positions at the second Safety Car Line.

Once the Race Director is satisfied that racing may resume, the Safety Car lights will normally be switched off before the Safety Car leave the track, all 'SC' boards will be withdrawn but yellow flags will continue to be displayed until the cars have passed each flag point. Other than on the last lap of the race, a green flag will be displayed only at the control (timing) line, to signify the resumption of the race. A Driver is not permitted to overtake another car until his car has reached the control (timing) line.

13.12 Finish

1. The end-of-race signal will be given at the Control Line as soon as the leading car has covered the greatest distance within the scheduled race time.
2. Should for any reason (other than when a race is aborted or suspended in accordance with Article 12.8) the end-of-race signal be given before the prescribed time has been completed, the race will be deemed to have finished when the leading car last crossed the Control Line before the signal was given. Should the end-of-race signal be delayed for any reason, the race will be deemed to have finished when it should have finished.
3. After receiving the end-of-race signal all cars must proceed on the Circuit directly to the Parc Fermé without stopping and without any assistance (except that of the marshals, if necessary).

Any classified car which cannot reach the Parc Fermé under its own power will be placed under the exclusive control of the marshals who will take the car to the Parc Fermé.

The control (timing) line applies both to the track and to the pit lane, except for the end of the race where a competitor must take the chequered flag on the track in order to be classified for that lap

14. Protests and appeals

According to AKK-Motorsport regulations

15. Choice of Law, Exclusion of jurisdiction of a court and limitation of liability

- a) Subject to prevailing sporting regulations, these Regulations for the Porsche Sprint Challenge NEZ shall be governed by the law of Finland.
- b) The jurisdiction of a court is excluded for decisions of the FIA, the AKK, their jurisdictions, the Stewards, the Series Organiser as judge in terms of Finnish Civil Code.
- c) No claim for compensation of whatever kind may be derived from actions and decisions of the AKK or its jurisdiction as well as of AKK representatives or the Series Organiser, except in the case of a damage caused on purpose or by gross negligence, except for damage or harm to life, body or health resulting from the deliberate or negligent breach of duty, including a legal representative or agents of the group of persons released from liability, and except for any other damage resulting from the deliberate or grossly negligent breach of duty, including a legal representative or agent of the group of persons released from liability.
- d) Implied exclusions from liability shall remain unaffected by the above exclusion of liability clause.

16. TV rights/advertising and television rights

All copyrights , are property of PRCF Events Oy

The Series Organiser is entitled to use exclusively all rights of the Competitors, teams and their Drivers, particularly names, logos, team equipment and cars, for the production of interactive games of the Series and to assign the rights to a third party for this purpose.

The media recorded by the on-board cameras in each car, as referred to in article 2.10.5 of the Technical Regulations, is the sole property of NEZ who have granted permission to the Series Organiser for this media to be used solely by the Technical Manager, the Stewards and the Race Director for the purposes of safety, technical and judicial inquiries. The media may be shown to relevant Competitors' representatives or Drivers as part of any safety, technical or judicial inquiry but is not permitted to be copied, filmed, photographed or otherwise replicated in any form to any person. The media will normally be erased after each session at an event.

Media received from Competitors can be used with permission to promote the series.

17. Specific Regulations

17.1 Paddock

- a) The image of the Series and the participating teams must be to a professional standard at all times. This includes, for example, team clothing, articulated lorries, awnings, pit walls and antistatic floor coverings (explicitly no carpet flooring). Teams must also provide appropriate means of ensuring that awnings are secured robustly against weather/wind conditions and ensure these are maintained throughout each event.
Every competitor must ensure that all safety relevant aspects of its team's working processes are fulfilled and observed.
- b) All trucks must be washed and cleaned before they are parked in the paddock. The use of trucks and trailer roofs as well as lifting platforms as spectator platforms is prohibited.
- c) Teams may use their trailers, including the roof, for advertising, respecting at all times the requirements of article 1.10 of the Technical regulations. The Series Organiser retains the right, at its sole discretion, to instruct the removal of any advertising or branding that is deemed offensive or inappropriate

17.2 N/A

17.3 Instructions of the Series Organiser and Officials

Instructions of the Series Organiser, their personnel and nominated event officials must be followed at all times.

17.4 Publication obligation

The nationality of the issuing licence authority must be stated for publications and podium ceremonies.

17.5 Podium ceremony

During the entire podium ceremony, except for the time during which the national anthems are being played, the Drivers on the podium must wear the caps of the tyre manufacturer on their heads with the logo at the front. No political or otherwise inappropriate statements, signals, gestures or stances may be given or displayed by Drivers either leading up to or during the podium ceremony. The ceremony starts with ascending the podium and ends with leaving the podium after the group pictures for the press.

It is mandatory for the winner of Series awards to attend the end of season Porsche Sprint Challenge NEZ awards ceremonies. Organiser in respect of each individual award absentee unless explicit agreement has been given for their absence. Such agreement will only be given in exceptional circumstances.

17.6 Stewards' Inquiries

The Stewards may hold inquiries into incidents observed by them or referred to them by the Race Director, Technical Scrutineers, Series Organiser or other parties. The Stewards may seek evidence from any source they choose – in the case of incidents on track the Race Director shall present any video evidence available and at any time requested by the Stewards, including during inquiries with Competitors and Drivers.

17.7 Incidents

17.7.1 The Race Director may report any on-track incident or suspected breach of these Sporting Regulations or the FIA International Sporting Code (an "Incident") to the Stewards. After review it shall be at the discretion of the Stewards to decide whether or not to proceed with an investigation.

The Stewards may also investigate an incident noted by themselves.

Any incidents involving more than one car may be investigated immediately or reviewed after the relevant session or race.

17.7.2 It shall be at the discretion of the Stewards to decide if any Driver involved in an incident should be penalised. Unless it is clear to the Stewards that a Driver was wholly or predominantly to blame for an incident no penalty will be imposed.

If a Driver is involved in an incident he may not leave the circuit without the consent of the Stewards.

17.8 Penalties

- a) At the individual events the Stewards (and the Race Director where specified in these regulations, further to Article 11.10.4 of the International Sporting Code) are responsible for imposing any penalties on the participants in respect of any breach of regulations. Any case not provided for in the regulations will be studied by the Stewards who alone have the power to make decisions, in accordance with Article 11.9 of the International Sporting Code.
- b) In addition to the cases listed in the International Sporting Code, these Regulations and the AKK Regulations, the following circumstances or offences may also incur penalties up to refusal of permission to participate, or disqualification of a participant from the competition:
- Non-compliance with the prerequisites for participation
 - Non-compliance with the Regulations in the Code
 - Advertising for brands that compete with the Series sponsors
 - Unsporting behaviour
 - Failure to comply with the instructions of the Series Organiser
 - Refusal to undergo a car check that has been ordered
- c) If any special examinations or investigations are required and ultimately lead to a determination of non-compliance with the regulations and/or a penalty being imposed by the Stewards, then the costs of such examinations or investigations shall be met by the Competitor whose car is determined to be non-compliant and/or who is subject to such penalty.
- d) The fact that penalties have been imposed by the Stewards does not rule out more extensive penalties being imposed by the relevant ASN or the FIA. These disciplinary bodies shall also be entitled to disallow points won in races in the 2022 Series competitions.
- e) Should any Competitor or Driver have points disallowed, no other Competitor's or Driver's score shall be adjusted as a consequence.
- f) In the case of disqualification from a competition, the points gained for the relevant race(s) shall be forfeited. In the event of disqualification from participating further in the Series, all points won up to that point shall be forfeited.
- g) The Stewards may impose any penalty they consider appropriate for a breach of the regulations, up to disqualification from the competition. The Stewards may also decide to impose a suspension for one or more competitions of the Series.
- h) The Stewards may impose penalty points, in addition to any penalty they impose, in relation to any breach of the regulations concerning driving standards, except that penalty points will not be imposed in any case where a Reprimand is imposed for a breach of regulations relating to driving standards.

17.9 The track

Drivers must use the track at all times and may not leave the track without a justifiable reason. For the avoidance of doubt:

- a) The track limit is the white lines at the track edge, so no white line is allowed to be visible beside trackside tyres.
- b) A driver will be judged to have left the track if white line is visible beside trackside tyres
- c) Any kerbs installed beyond the white lines are not considered to be part of the track
- d) Any report made by a duly appointed Judge of Fact regarding a Driver having left the track may not be contested by the Competitor or the Driver concerned and a Judge's statement of fact must be accepted as a fact unless later corrected by him or over-ruled by the Stewards. The Race Director and/or the Stewards may, at their sole discretion, review any report for the purposes of ensuring accuracy and consistency. This does not preclude the Stewards from exercising their right to over-rule, or accept a correction from, a Judge of Fact.

The following penalties may be applied:

- a) Any collision between cars during race or qualification will be penalized by a 20 second time penalty for the driver causing the collision if the car that has been hit lose his position because of the collision.
- b) If a driver drifts outside the track following a driver error or intentionally so that all four tires are outside the track and the driver gains advantage, the penalty in the round is 5 sec for the first time and 10 sec for the second time. The track limit is the white lines at the track edge, so no white line is allowed to be visible beside trackside tyres. Use of kerbs is allowed, taking into account all other sections of this driving conduct. In no case are tires allowed to go on sand or grass, even if the trackside tires remain on track.
- c) Hit at track limit stick, a penalty in the round is 5 sec for the first time and 10 sec for the second time.
- d) In case the driver's conduct is seen to be intentional and/or unsafe, he/she will be shown the warning flag. Next, a black flag can even be displayed. A warning is also given for the third same fault in the round. (Warning remains valid during the remaining race.)

The time penalties will be shown at the main flag post for two laps so that all drivers can see them. Time penalty can be added to a driver's time, even that there was no time to show it during the Race.

At the absolute discretion of the Race Director, a driver may be given the opportunity to give back the whole of any advantage he gained by leaving the track.

17.10 Environmental Regulations

- a) General
It is the Competitor's responsibility to ensure at all times during events that the environmental code of conduct of the AKK and of the circuit are followed.
- b) Tyre Cleaning
Tyre cleaning water is only allowed if all waste water is collected and disposed of in the designated area(s).
- c) Collection of Hazardous Liquids
It is the Competitor's responsibility to ensure at all times during events that hazardous liquids are collected by suitable containers or absorbing sheets and disposed of in the designated area(s). It is recommended to cover the complete working area below the cars in the tent with absorbing sheets. Any hazardous liquid container needs to be stored in a separate container that holds any spillage or overflow.

18. Safety

18.1 Extrication exercise

At each event, the Series Organiser, in conjunction with the event medical personnel, may elect to hold an Extrication Exercise. The Series Organiser shall, by rotation, nominate a team and Driver to take part in the exercise. The team and Driver must comply with this request and have the nominated car and Driver, with all racing equipment, available at the designated date and time in the Series paddock, in full race condition.

Failure to comply with this regulation may result in a penalty. The Series Organiser or the Race Director, at their sole discretion, may elect to replace the Driver with a member of the medical team undertaking the exercise.

18.2 Pit lane safety

- a) The maximum pit lane speed is specified in the Drivers' Briefing and will be monitored by the Race Director and the Stewards. Drivers exceeding the permitted maximum speed during free practice and in qualifying sessions shall be penalized according to supplementary regulations for each event. Drivers who repeatedly exceed the permitted maximum speed in the pit lane during free practice and qualifying may face additional penalties for speed limit violation. Drive-through penalties may be issued if the permitted maximum speed in the pit lane is exceeded during a Race. During the last laps of a race where a drive-through penalty cannot be served, a time penalty of 30 seconds will be imposed
- b) The use of safety stands (securing the car from dropping unintentionally from the air jacks) for any type of work underneath the car will be strictly enforced. Any non-compliance will be reported to the Stewards and penalised at the full discretion of the Stewards.
- c) All work on cars in the pit lane must only be undertaken in the Competitor's own allocated working area in the inner (working) lane. No work may be undertaken in the outer (fast) lane or elsewhere in the inner (working) lane. When cars are waiting in the outer (fast) lane prior to exiting the pit lane at the start or restart of any practice or qualifying session or race, no work of any description may be undertaken on the car. It is permitted to use a forced air blower to cool the Driver but any such cooling equipment must be removed from the outer (fast) lane before the pit lane open signal is given.
- d) The outer (fast) lane is to be kept unobstructed to allow safe passage of cars at all times. It is the responsibility of each competitor to release their car from the working area only when it is safe to do so. Cars in the fast lane have priority over those leaving the working lane.
- e) The onus shall be on all Drivers to take due care and drive within the pit lane speed limit. Drivers must respect the designated pit entry and must not cross the white line at pit exit, details of which will be provided in the Drivers' Briefing.
- f) All equipment must be kept in a safe position towards garages as soon as cars leave their pit areas at the start of and during practice, qualifying and races.
- h) No equipment may be positioned on top of the pit wall or any adjacent structure, unless it is firmly secured in position.
- i) The zero-tolerance in the use of alcohol applies also to Team mechanics and other members while they are working with the race car.
- i) No person under the age of 16 is permitted in the pit lane at any time.
- j) Competitors, team members and Drivers must ensure that their guests always respect the pit lane regulations and be vigilant at all times. To this end, it is the responsibility of each Competitor and/or Driver to give a briefing to each individual guest regarding pit lane safety.

18.3 General safety

- a) Drivers are strictly forbidden to drive their cars in the opposite direction to the specified direction unless this is necessary in order to move the car from a dangerous position. A car may only be pushed to remove it from a dangerous position as directed by the marshals. No car may be reversed in the pit lane under its own power.
- b) At any time whilst on track, Drivers may only use the track and must always observe the provisions of the International Sporting Code and these regulations relating to driving conduct on circuits.

- c) Official instructions will be given to Drivers by means of the signals set out in Appendix H of the FIA International Sporting Code. Competitors are responsible for observing and complying with these at all times. At circuits where flag signals are supplemented by light panels/signals, both means of signalling will be deemed to have regulatory value.
- d) If a car stops during any session or race it must be removed from the track as quickly as possible so that its presence does not constitute a danger or hinder other Competitors. If the Driver is unable to drive the car from a dangerous position, it shall be the duty of the marshals to help; however, if any mechanical assistance is required to move the car then the car will not be permitted to re-join. A Driver who abandons a car must leave the steering wheel in place.
- e) A car's lights must be illuminated at all times when it is running on treaded tyres and/or the "lights on" board has been shown. The Technical Scrutineers may check the lights at any time until 15 minutes before the green flag. Should any lights fail during the session, no penalty will be imposed but the Race Director may stop a car using the black and orange flag if he considers this is causing an immediate safety issue.
- f) Should any session or race run into dusk or darkness all cars must, on the Race Director's instruction, have two front headlights and two rear red lights illuminated. Should any lights fail during the session, no penalty will be imposed but the Race Director may stop a car using the black and orange flag if he considers this is causing an immediate safety issue.
- g) Throughout all sessions there will be a green / red light at the pit exit.
Cars may only leave the pit lane when the green light is on.
- h) Any driver intending to leave the track or to go to his pit or the paddock area must signal his intention to do so in good time making sure that he can do this without danger.
- i) At the end of any session or race, each driver may cross the Control (Timing) Line only once, or as instructed in the Supplementary Regulations of the event.
- j) Team personnel are not permitted to ride on the tyre trolleys or on buggies (or similar vehicles) apart from using the specific seats provided with the vehicle.
- m) Only small two- and four-wheeled motorised paddock vehicles may be used within the paddock and must be authorised by the Series Organiser prior to use. These vehicles must be insured and may only be used when driven by a current full road traffic licence holder and for race team related business. Recreational use is strictly prohibited. Private cars and vans are not considered as paddock vehicles.
- n) The speed limit in the paddock at each venue is 10 kph.
- q) All paddock vehicles that require personnel to be on the roof (i.e. to affix awnings or flag poles / flags) must have the relevant safety equipment fitted. Any personnel on the roof must wear the relevant safety harnesses which must be affixed to the equipment on the roof.

Part 2: Technical Regulations

1. Technical Series Regulations

1.1 Summary of the eligible groups/classes

Porsche Sprint Challenge NEZ is a Championship series under Porsche Motorsport, organized and managed in Finland by PRCF, a member club of the Finnish ASN, AKK-Motorsport ry, following the FIA International Sporting Code, and the rules of this series. The series is run in three classes, but there is only one champion.

Only technically identical cars of the model Porsche 911 GT3 Cup and GT4, type 997.2, 991, 992 and Cayman (a special series produced by Dr. Ing. h.c. F. Porsche AG), which fully comply with these Regulations are eligible to participate.

The cars must meet the technical specifications of these Regulations and Appendix J of the International Sporting Code in full and must possess a valid and registered AKK car pass or the corresponding document of another ASN associated to the FIA.

Cars may only deviate from the Technical Regulations where specifically agreed for development purposes on behalf of the Series Organiser. The deviations shall be referred for approval to the Scrutineers by the Series Organiser before the car is used and shall not involve any safety-critical modifications nor may they provide any performance or competitive advantage. Where required by the Series Organiser, Competitors must comply with the fitting of any additional parts or systems for development purposes.

1.2 Principles of the Technical Regulations

In accordance with:

- Art. 251 and 277 (Group EII-SH) of Appendix J (FIA ISC)
- General provisions, definitions and clarifications regarding the technical rules (AKK manual), see also article 1.11 concerning safety equipment in events abroad
- These Technical Regulations
- Technical Manuals of the eligible cars
- Technical Information of Dr. Ing. h.c. F. Porsche AG
- Software Information of Dr. Ing. h.c. F. Porsche AG
- Spare Parts Catalogues of the eligible cars

Competitors must comply with all elements of each of the above unless they are clearly specified as being optional.

National regulations of the AKK deviating from the FIA safety regulations are not valid for series and events with the status international. The safety regulations according to article 1.11 of these regulations apply.

Should there be any discrepancy between the provisions of these Technical Regulations and any relevant Technical Manual, Technical Information, Software Information or Parts Catalogue, then these Technical Regulations will take precedence.

Any requirements specified in a Technical Manual, Technical Information, Software Information and/or Parts Catalogue may be updated by Dr. Ing. h.c. F. Porsche AG. For Software Information, only the latest version is valid but Setups (based on the latest version) may be varied within the parameters allowed by Dr. Ing. h.c. F. Porsche AG. Any requirements may be varied for any specific competition by means of a Stewards' Bulletin issued at that event.

It is recognised that spare parts listed in the parts catalogue may be subject to a change of part number during the season. Therefore a spare part which is identical to that shown in the parts catalogue (and which has the same function, working principle and location in the vehicle) but which bears a different part number may be used, subject to prior approval by Dr. Ing. h.c. F. Porsche AG Aftersales Department. Such approval shall be at the sole discretion of Dr. Ing. h.c. F. Porsche AG and it is the responsibility of the Competitor to ensure such approval, where granted, is documented and retained for inspection by the Technical Scrutineers.

Certain alternative parts as detailed in Attachment 17 which have different part numbers to, but the same function as, the original part in the car or in the spare parts catalogue are allowed to be used for the originally intended function and in the originally intended position.

1.3 General / preamble

Everything that is not expressly permitted in these Regulations is prohibited. Any addition or removal of material, heat treatment or coating to alter the properties of a part or component and/or its dimensions is forbidden. Mounting a part in a different way or location than the original delivery condition is forbidden. Permitted modifications must not result in any illegal modifications or infringements of the Regulations. Any permitted changes may only serve the intended purpose. The decision of the Sporting Committee shall be final regarding any interpretation of these Regulations. The Series Organiser reserves the right to amend and extend these Regulations (in consultation with the NEZ / AKK).

The installation of any permitted optional parts or systems must be in accordance with the manufacturer's instructions and must be approved by the Technical Scrutineers. Any such installations remain the sole responsibility of the participant. At the Technical Scrutineers discretion, any competitor must, if requested, remove any optional part or system.

The rules to be followed are AKK-Motorsport 2022 Regulations and these Sprint Challenge NEZ Regulations. In conflicting situations concerning technical, Sprint Challenge NEZ rules take precedence.

1.4 Driver equipment

Driver equipment must be worn correctly at all times whilst the driver is seated in the car in the pre-grid area, the pit lane and on the track. It is compulsory to wear overalls in compliance with the FIA 8856- 2000 or FIA 8856-2018 standard as well as underwear (with long sleeves and legs), balaclava, socks, shoes and gloves in compliance with FIA Regulations.

Furthermore, wearing a helmet in compliance with the FIA Regulations (Appendix L of the ISC) is compulsory.

All Driver equipment must be worn in accordance with the manufacturer's instructions (balaclavas inside race suits, FHR systems correctly secured, etc). Failure to do so may result in the Driver being shown the black flag and/or being ordered by the Race Director or the Stewards to immediately rectify any error or omission.

1.4.1 Frontal Head Restraint System (FHR; HANS® or comparable system)

The use of an FIA-approved head restraint in compliance with FIA list No. 29 is compulsory for all races and competitions within the Series as well as for all races outside the Series which are organised according to these Regulations.

Responsibility for the necessary modifications to the Driver's equipment in order to enable use of such a system and installation of same in the car in compliance with the manufacturer's instructions lies solely with the participant. The relevant manufacturer's certificate is to be presented during Technical Scrutineering.

1.4.2 Drinking system

A drinking system may be used. Installation needs to be fixed using metal hardware and be able withstand a crash of 30G.

1.4.3 Cooling system

A cooling system with cooling vest may be used. Installation needs to be fixed using metal hardware on the auxiliary weight base plate and be able withstand a crash of 30G.

1.5 General Regulations

1.5.1 Permitted modifications and installations

The only work which is permitted to be carried out on the cars is that necessary for its normal servicing, or for the replacement of parts worn through use or accident.

The limits of the modifications and installations permitted are specified hereinafter. Any part worn through use or accident may only be replaced by identical Porsche Genuine Parts that are assigned to the eligible cars in compliance with Item 2.1. The Porsche Genuine Parts are specified in the valid spare parts catalogue in each case.

The use of components manufactured by Dr. Ing. h.c. F. Porsche AG for other groups of cars (e.g. Porsche road cars) is also prohibited.

The use of any items described as “optional” in the parts catalogue is prohibited, if their use is not specifically permitted by these technical regulations.

Throughout the car, the standard fastening components such as nuts, bolts, washers, lock washers, spring washers and splint pins must only be replaced by Porsche Genuine Parts.

The service and replacement intervals and adjustment values specified by Dr. Ing. h.c. F. Porsche AG (see Technical Manual) are to be observed.

The Series Organiser may permit modifications that do not correspond to the series production status on all or individual cars, providing these do not confer any competitive advantage (e.g. for the attachment of cameras; radio installations, etc.). The Competitor must make written application to the Series Organiser and receive written authorisation before making any such modification.

1.6 Minimum weights and ballast

It is the Competitor’s responsibility to ensure that at all times during a competition the mandatory minimum weight specified in the preliminary scrutineering of the car is reached. At no time during a competition is the car weight permitted to be less than the mandatory minimum weight when the car is either presented for technical scrutineering, is on the track or in Parc Fermé.

Driver equalisation weight is used; from the day when the driver turns 55, he is entitled to equalisation weight.

The mandatory combined minimum car and Driver weight (together with all Driver equipment and equalisation weight) for each car is given in Attachment 16.

The minimum weight must also be observed when the levels of operating liquids are under minimum level.

The checking of the weights of the cars and Drivers will be conducted on the “official scale” which will be located in the Series Technical Scrutineering place or in an alternative designated place. This is also the weighing area. In addition, Drivers may be weighed on a separate weighing scale either in the weighing area or in the pitlane.

Technical Scrutineers specify scales to be used to check driver and car weight.

These scales are referred to as the “official scales”. The official scales are located in the Series technical scrutineering place or in an alternative designated place that is also the weighing area. The official scales will be checked and calibrated annually.

1.6.1 Base plate auxiliary weight

If the original base plate does not contain the necessary holes for the mounting positions as indicated in these regulations, they can be added after consultation with the Technical Scrutineers. The mounting holes can only be added in the necessary positions to satisfy the requirements of these regulations.

1.6.2 Ballast

The installation of ballast is permitted. These must be installed in the passenger's seat place following the corresponding car's technical manual.

Ballast definition according to AKK-Motorsport regulations.

997.2: Ballast weight must be bolted on the car floor using passenger seat mounting points. Ballast can also additionally be bolted through the floor. Mounting of ballast elsewhere is prohibited.

991, 992: Original Porsche parts must be used to mount the ballast.

Ballast: 997.504.848.00 / 997.504.848.01 / 997.504.848.02 or 991.504.848.00 / 991.504.848.01 / 991.504.848.02

GT4: Ballast according to the Spare parts manual.

The ballast weights are identified by spare part numbers in the spare parts catalogue and the reference table in Attachment 17. No other ballast weights or locations are permitted.

Heavier base plate

991: Instead of the original part, base plates with part numbers 991.504.847.7A and 991.504.847.9B can be used.

If the plate does not have mounting holes following these rules, they may be added after consultation with the s Technical Scrutineers. Holes for fastening may only be made at the points referred in these rules.

1.6.3 Minimum car weight

The mandatory combined minimum car and Driver weight (together with all Driver equipment and equalisation weight) for each car is given in Attachment 16.

1.6.4 Driver weight

The driver must be present at the preliminary scrutineering weighing.

During weighing, drivers must wear driving equipment following FIA Code, Appendix L, Chapter III, as well as the mandatory HANS.

This official weight is rounded up to the nearest full kilogram.

Once the driver's weight has been recorded, this will be the official weight for the entire event.

Dissatisfaction with the observed weight must be brought to the attention of the scrutineers immediately after the result is announced.

After this, only the car is weighed in the scrutineering, the minimum competition weight of which is indicated in the preliminary scrutineering. For all scrutineering, the driver must have all the necessary driving equipment.

1.6.6 Weight changes during qualifying and races

During any qualifying session and race, the weight of the car is only permitted to be altered by:

- Changing from slick tyres to wet tyres or vice versa;
- Consumption of consumable materials and fluids.

On the way from the circuit to the Parc Fermé and in the Parc Fermé itself, and on the way to the post-race technical scrutineering, under no circumstances is weight in any form permitted to be added to the car or the Driver.

1.6.7 Verification of the minimum weights by the participants on the official scale

Competitors have the opportunity to check the weight of their cars and Drivers during the event on the official scale and/or Driver scales with the permission of the Technical Scrutineers. Only the measurements recorded by the Technical Scrutineers shall be deemed accurate for the purposes of compliance with the regulations.

1.6.8 Personal protective driver equipment during weighing

During the weighing, each driver must wear his complete driver apparel as set out in Annex L, Chapter III of the ISC, plus the mandatory head restraint system.

1.6.9 Weighing of cars

The cars are weighed as follows:

- Weighing of cars is carried out regularly on the official scale.
- If a driver is given the signal that his car has been selected for weighing, he/she must take the shortest route possible to the weighing area and turn off the engine.
- The driver or a team member will receive notification of the measured weights. During weighing the driver is not permitted in any way to influence the weighing result.

If a car cannot reach the weighing area under its own power, it must be brought to the weighing area solely by marshals. If this is not possible, then the Technical Scrutineers can assign other persons for this purpose.

1.6.10 Leaving the weighing area

Without the consent of the Technical Scrutineers, the driver is not permitted to leave the weighing area and the car is not permitted to be removed.

1.6.13 Replacement and loss of car parts and car damage

All car parts that were replaced during any session (free practice, qualifying or race) must be presented to the Technical Scrutineers without request for inspection. The parts that were removed from the car will be marked by the Technical Scrutineers if necessary and are not permitted to be modified in any way afterwards. These parts must remain in the pit or in the technical scrutineering place in sight of the Technical Scrutineers or their assistants until released by the Technical Scrutineers. These parts can be considered when determining the weight instead of the replacement parts.

In case of a loss of coolant caused by damage or an incident during a session, it may be possible to determine the final weight of the car by draining all remaining coolant liquid (from engine, coolant reservoir, all radiators, all coolant hoses and connectors) and adding 24.0 kg to the measured weight of the car. The decision to do so is at the sole discretion of the Technical Scrutineers.

Should a car be presented for weighing with lost or damaged parts it shall be at the sole discretion of the Technical Scrutineers to determine which, if any, parts should be replaced prior to the car being weighed.

1.6.14 Parc Fermé rules for car weighing

Cars that have been specified for weighing are subject to Parc Fermé Regulations. It is forbidden to add or remove any substance to/from the car after it has been selected to be weighed. The same applies during the weighing process and after the end of the race. Excluded are actions of the Technical Scrutineers.

It is the Competitor's responsibility to ensure that the car entered by him can be brought directly to the weighing area when instructed by the Stewards or the Technical Scrutineers at any time during the event. In any case, Parc Fermé rules apply to the car from the moment of the order until the termination of the weighing process.

1.6.15 Weighing in below the minimum weight

If, during any post session weighing procedure is found to be below the currently applicable minimum weight, the car will immediately be weighed for a second and a third time on the same scales and in the same condition after the same session and with the same measuring method.

The average value of the 3 weights recorded is regarded as the actual weight for

Falling below the minimum weight during the practice or qualifying session may be penalised with the deletion of the practice or qualification times achieved by the Driver concerned. If the qualification times are deleted, the Driver may be permitted to start the race from the last place on the starting grid, subject to the Stewards approval.

Falling below the minimum weight in the race may result in disqualification from the race classification.

1.6.16 Regulations on the route to and in the weighing area

Parc Fermé rules apply to the route to the weighing area and in the weighing area itself. In addition to the Technical Scrutineers, only the responsible sporting marshals and their helpers are permitted to enter the weighing area. In this area, the only activities on the car are those expressly permitted by the aforementioned persons. If a car is not presented for weighing despite a request, the Technical Scrutineers will inform the Stewards. The driver is not allowed to leave Parc Fermé without a permit from the Technical Scrutineers.

1.7 Emissions regulations

The cars must be equipped with a catalytic converter as supplied by Dr. Ing. h.c. F. Porsche AG according to the spare parts catalog.

1.8 Noise regulations

The maximum permitted noise limits are 110 dB (A) measured according to the AKK regulations.

1.9 Advertising and partnerships

The current NEZ / AKK prescriptions for competition numbers and for advertising on the Driver's equipment/on the car must be respected. The provisions set out under Article 16 of Part 1 Sporting Regulations also apply.

Under consideration of the NEZ prescriptions for competition numbers and advertising on cars, the following advertising is compulsory on the car Attachment 2, 3, 4, 5.

The "Badge Regulations 2022" and the "Sticker Regulations 2022" are part of these Regulations (see Attachments 1, 2, 3, 4, 5).

Any breach of these Regulations may result in the participant concerned being disqualified from classification.

The sticker regulations are agreed with the NEZ. The organization will provide one set of obligatory stickers and badges for each driver per season including name, numbers, info-plate sticker, and Series sponsor stickers and cloth badges.

Additional stickers and badges will be charged from the Team.

Class GT4 in case of non-compliance locations, the organizer will appoint the correct placement.

All advertising surfaces that are not occupied as specified in the Sticker Regulations are available for the Competitors' own advertising labels. The clearance between such advertising and the mandatory labels and competition number shall be a minimum of 30 mm.

Cars of a team with virtually identical liveries must have clearly different wing mirror colouring. The colours used on mirrors to identify the cars are to be retained for the entire season.

The registered Competitors will be informed about their competition numbers before the first race. The competition numbers remain the same for all races.

The Drivers' names, competition numbers and national identification markings must be fixed on all competition cars throughout the entire event. The size, type, quantity and positioning of the identifications shall be determined by the Series Organiser and notification is given in the "2022 Sticker Regulations" Attachment 2, 3, 4, 5.

The Competitor is responsible for ensuring that the stickers on the entered cars comply with the applicable legal regulations.

IMPORTANT: Any variations of these Regulations are subject to a special waiver issued by the NEZ.

Competitors must not advertise any partnerships/sponsorship with companies who are either in competition to Dr. Ing. h.c. F. Porsche AG, its parent or partner companies, the official Series partners of Dr. Ing. h.c. F. Porsche AG or who are involved in a legal dispute with Dr. Ing. h.c. F. Porsche AG or a company associated with Dr. Ing. h.c. F. Porsche AG. The Competitors are therefore obliged to notify potential partnerships/sponsorship to Dr. Ing. h.c. F. Porsche AG in advance. Dr. Ing. h.c. F. Porsche AG is entitled to prohibit Competitors from advertising any partnership if the potential partner falls into one of the above two categories.

The use of advertisements for companies, their products, services or brands that are Competitor products, services or brands of Dr. Ing. h.c. F. Porsche AG, their associated companies or the Series partners/sponsors on cars, helmets, race suits and other Driver equipment, on team vehicles or on team clothing or any other kind of advertising for these companies, products or services is strictly prohibited. Also prohibited are advertisements for Driver coaching and/or development programmes (other than the Porsche Junior or Rookie Programmes) and any non-Porsche one-make race series.

The use of advertisements for companies in the tobacco and sex industry, or political or religious advertising, or private betting and gambling operators on cars, helmets, race suits and other Driver equipment, on team vehicles or on team clothing or any kind of advertising for these companies, products or services or anything that may be deemed by Dr. Ing. h.c. F. Porsche AG to bring the company and / or the Series into disrepute is strictly prohibited.

The advertising guidelines of the NEZ and AKK as well as general or legally regulated advertising bans must be observed.

The Competitor is obliged to notify the Series Organiser of all potential partners/sponsors and obtain written approval from the Series Organiser for their use. The Series Organiser is entitled to prohibit Competitors from displaying or promoting in any manner the details of any unapproved partners/sponsors.

The Competitor and team partners/sponsors shall grant to the Series Organiser and the Series partners/ sponsors all materials depicting the championship and/or rights to use sporting success for advertising purposes, without paying separate fees for this purpose.

Contravention of any of the advertising regulations may result in refusal to participate in any competition or disqualification from the competition, in each case at the discretion of the Stewards.

Team wear

All adult members of the Team must wear a uniform, Challenge-approved shirt, or jacket with the Challenge Series logo on the left chest with the partner logo during the competition event. It is also recommended that even the children should wear team outfits or at least Porsche-style outfits. Through the Challenge organization, Teams can purchase official technical T-shirt and official coat where the Teams can print their own Team-logo as well as the sponsors logos.

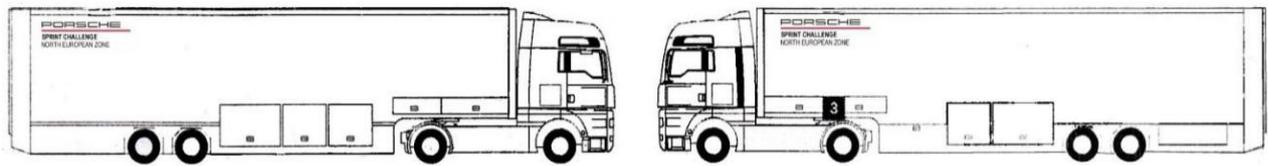

Team mechanics overalls and other clothing must bear Challenge-badge with the sponsor logo on the left chest.

The rule for Team-wear advertisement is the same as for the cars.

Service and transport vehicles and trailers

All service and transport vehicles in the paddock area must have the Challenge series logo in the upper left corner of the sidewall.

Stickers are available in size "Trailer" and "Semi"

The rule for all service and transport vehicles advertisement is the same as for the cars.

1.10 Safety equipment

The cars must possess the following safety equipment.

The article numbers refer to the current Appendix J, Art. 277 (Group EII-SH) of the ISC unless stated otherwise.

The safety pins on all bottle(s) of the extinguishing system in the car must be removed, the on-board fire extinguisher system must be switched into position "Armed" and the red LED illuminated from the moment a car leaves its team area to travel to the pre-start area for each session and must not be switched off until the car is returned to the team area or Parc Fermé after the session.

Note:

For events held in all of the countries listed in the Series calendar (article 7.1), the Series Organiser is responsible for observing and implementing (or agreeing any deviation from) any additional safety regulations of the respective ASN.

1.11 Fuel type and single fuel**1.11.1 The following single fuel must be used**

The only permitted fuel is commercial, unleaded 98 E5 fuel in compliance with AKK-Motorsport regulations.

Always when arriving in Parc Fermé area there has to be enough fuel in the fuel cell (3L) to withdraw a fuel sample from the sample point.

1.11.2 Fuel controls

The Technical Scrutineers shall be entitled to take fuel from a participant's car at any time during the event. The Competitor must ensure that at any time from the commencement of pre-start for any session or race until the car is released from Parc Fermé at the end of the respective session or race, a minimum of 3L of fuel can be taken from the corresponding removal point (defuelling coupling of the fuel cut-off valve) in the luggage compartment. These samples must be identical to the pump samples defined above.

The defuelling process will be done on the measuring platform of the Technical Scrutineering area. If necessary, the Technical Scrutineers may specify a different location. During the defuelling the vehicle must be stood on the platform (or the ground if a different location has been specified) on all four tyres and must not be moved. The required quantity of fuel must be able to be taken, from the removal point defined above, within a maximum period of 10 minutes after the start of defuelling.

1.11.3 Refuelling, refuelling installations and control

The addition of any additives or any chemical changes to the fuel are prohibited.

Fuelling and refuelling of the cars during free practice, qualifying and the race is forbidden.

Fuel cooling is not permitted.

997.2, 991, GT4: Any operations involving the handling of fuel require the proper grounding to earth of the car and all equipment involved.

992: Fuel may only be added or removed into or from the fuel cell of the car using a closed-circuit fuelling system manufactured by a specialist company (the Series Organiser reserves the right to inspect any system being used and approve or disapprove its use). The exact specification of the closed-circuit fuelling system may be chosen by the team according to their needs (size, pump speed, etc.) however no safety aspect of the system is permitted to be changed. The fuel will only be supplied in drums and may only be added and removed from the drums with the same closed-circuit fuelling system specified using a suction pipe.

Any operations involving the handling of fuel require the proper grounding to earth of the car and all equipment involved; in addition, there must be two minimum 6kg ABC Dry Powder or alternatively two minimum 5kg CO2 fire extinguishers present in the area of the fuel operations.

Fuel may only be added or removed by appropriate means. The series organization reserves the right to inspect the equipment used and either accept or deny its use.

The person handling fuel must wear at least long-sleeved cotton overalls.

It is recommended to wear fireproof coveralls, hood, shoes, and gloves as well as goggles

Any work requiring the fuel cell to be opened may only be performed after all fuel has been completely removed from inside the fuel cell and with appropriate protection and fire extinguishers being present at the respective work area.

Smoking and hot works are prohibited when any operation involving fuel, or the fuel cell is in progress.

1.12 Technical definitions

In addition to the definitions in the "General Regulations, Definitions and Clarifications regarding the Technical Regulations" (AKK regulations) the definitions set out in Appendix J (Art. 251 ISC of the FIA) shall apply.

2. Specific Technical Regulations

2.1 General Information

General car description

Only Porsche AG manufactured Porsche cars used in series; 997.2, 991, 992 and GT4

997.2, 991.1, 991.2, 992 and GT4

Porsche GT3 Cup	2010 - (according to their spare parts catalogue)
Porsche GT3 Cup	2013 - (according to their spare parts catalogue)
Porsche GT3 Cup	2017 - (according to their spare parts catalogue)
Porsche GT3 Cup	2021 - (according to their spare parts catalogue)
Porsche GT4	2019 - (according to their spare parts catalogue)

Concept: Single-seated, near-standard car based on the Porsche 911 GT3 and Porsche GT4 Clubsport

For further general descriptions, the Competitor (entrant) shall refer to the respective paragraph of these technical regulations.

Important Information

Certain special parts used in the Porsche 911 GT3 Cup And GT4 cannot be obtained via the Porsche dealer organisation but instead can only be obtained from the Dr. Ing. h.c. F. Porsche AG Motorsport Parts Sales Department and Manthey-Racing at

Dr. Ing. h.c. F. Porsche AG

E-Mail: sales@manthey-racing.de

All Teams/drivers (car owners) must log in to the Porsche Motorsport technical database.
Login codes are requested using the Porsche Motorsport form.

<https://motorsport.porsche.com/prod/motorsport/infocenter/DLCRegister.nsf/Registration?OpenForm>

The cars must comply with the requirements of these Technical Regulations. Technical inspection and acceptance of the cars is undertaken by the Technical Scrutineers.

The organizer reserves the right to accept or reject cars for the Sprint Challenge series.

The organizers reserve the right to take into account, at any time during the season, the appearance and cleanliness (including interior) of the car and may not approve any car if its appearance and cleanliness may damage the reputation of the series or is not otherwise acceptable.

2.2 Engine

2.2.1 General description

Water-cooled six-cylinder boxer engine as per corresponding spare parts catalogue.
Coolant additives that do not cause slippery on track in case of coolant loss are permitted.

An engine change must be approved in writing by the Series Organiser prior to the change.
Engines can be called in and inspected at any time by the Scrutineers or on the instructions of the Stewards.

2.2.2 Engine electronic control units

Throughout the entire event, only the engine electronic control units coded and sealed by Dr. Ing. h.c. F. Porsche AG or the Series Organiser are permitted to be used.

The engine electronic control unit incl. the complete wiring harness must be used without modifications. The Series Organiser or the Technical Scrutineers reserve(s) the right to check or exchange the engine electronic control unit or record the engine characteristic data at any time during the event. The Series Organiser reserves the right to reprogram the engine electronic control units and to seal the plug-in connectors for reading the engine electronic control units at any time of an event. It is thus ensured that the status of the program and data is identical for all participating cars.

The Technical Scrutineers need to be informed in writing of VIN and ECU number if an electronic control unit has the capability of traction control and is used in an event. Traction control must be disabled at all times throughout the event.

2.2.3 Exhaust system

The exhaust system, starting from the manifold, for the Porsche Sprint Challenge NEZ have to be completely as in the parts listed in the valid parts catalogue for the respective car and model year to the version

2.2.4 Engine oil quick refill

The use of the optional "oil quick filling kit" as shown in the catalogue is permitted, provided the mounting is fully compliant with the official Dr. Ing. h.c. F. Porsche AG mounting instructions.

The hole in the engine lid required to fit the quick oil fill must be fully covered by clear heli tape.

The use of the engine oil quick fill in pit lane during any Porsche Sprint Challenge NEZ event is prohibited.

2.3 Power transmission (gearbox/differential lock)

2.3.1 General description

- Porsche 911 GT3 Cup, Six-speed sequential dog-type gearbox
- Porsche GT4, Six-speed PDK-gearbox (DCT, dual-clutch transmission)

2.3.2 Ramp breakover angle, differential lock

Differential lock ramp breakover angle and assembly according to corresponding technical manual.

2.3.3 Transmission emergency function

If the transmission emergency function has been switched on the car must immediately return to the pit lane. The car is not permitted to leave the pit lane again until this function has been deactivated.

2.4 Lubrication system, Lubricants

Engine:

Either Mobil 1 0W-40 or Mobil 1 ESP X3 0W-40 engine oil is compulsory according to car Technical Manual. The addition of any additives or any chemical changes to the engine oil are prohibited.

(GT4: Mobil oil according to the technical manual is used.)

Transmission:

Mobilube 1 SHC 75W-90 transmission oil is compulsory. The addition of any additives or any chemical changes to the transmission oil are prohibited. No less than the minimum quantity of transmission oil in the gearbox as specified in the manual must be used at all times during any event.

(GT4: Mobil oil according to the technical manual is used.)

2.5 Brakes

It is not permitted to modify the car to endurance brake calipers, even if they might be listed in the parts catalogue.

997.2: Permitted brake pads: OEM Porsche Carrera Cup, Pagid black RS-14, Ferodo DS 1.11 (W)

2.5.1 General description

Only standard master brake cylinders as per corresponding spareparts catalogue are permitted for the 2 brake circuits.

Only standard front and rear fixed brake calipers as per corresponding spareparts catalogue are permitted.

The use of any system working like an ABS system is strictly prohibited, except in GT4. For easier handling and more versatile use of the cars besides the Porsche Sprint Challenge NEZ, it is permitted to have the following parts of the ABS system offered by Dr. Ing. h.c. F. Porsche AG still in the car during any events of the Porsche Sprint Challenge NEZ, provided that all components are fitted in compliance with the official Dr. Ing. h.c. F. Porsche AG mounting instructions:

- ABS ADAPTER HARNESS
- G sensor ABS and TC

2.6 Wheel suspension

Only standard wheel suspension components front and rear as per corresponding spareparts catalogue are permitted.

2.6.3 Allowed adjustments

The suspension is permitted to be modified within the scope of the specified setting range. All genuine parts must be retained.

Camber adjustment shims for lower track arm:

997: front max. 13mm, rear max.13mm.

991: front max. 18mm, rear max.15mm.

992: front max. 19mm, rear max.13mm.

The non-removable spacer (part number 9F1.505.184) of the rear lower control arm will be included when determining the combined thickness of the camber spacer washers.

GT4: front max. 18mm, rear max.18mm.

It is permitted to fix the camber shims in position with aluminium tape or securing wire.

All bearing points of the front and rear control arms must be left in the position in which they are delivered. The adjustment of the eccentric screw at the front upper control arm mounting bracket, within its specified setting range, is permitted.

2.6.4 Anti-roll bars

The anti-roll bars are only permitted to be unhooked provided that one coupling rod of the respective rollbar is completely removed. Only the respective setting options given in the Technical Manual are permitted to be used.

- 991:** Shims are permitted to be used to compensate for the axial clearance of the anti-roll bars on the front and rear axles. The overall axial clearance of the anti-roll bars on the front and rear axles must not be less than 2.0mm. Designated shims shown in the spare parts catalogue are permitted to be used to compensate for the axial clearance.
- 992:** The axial clearance of the anti-roll bars on the front and rear axles must be below 1.0mm. Designated shims shown in the spare parts catalogue are permitted to be used to compensate for the axial clearance.

2.6.5 Shock absorbers/springs

Only the factory-installed type shock absorbers and springs in their original condition are permitted to be used. The original delivery condition of the bump stops must not be modified in any way.

2.6.7 Steering

- 997.2:** The steering wheel can be either original or optional racing steering wheel if it has a uniform rim and is round. A quick-release mechanism is mandatory and a hub extension is permitted.

2.7 Wheels (flange + rim) and tyres**2.7.1 General description**

997.2: Front axle 9,5J x 18 ET 37mm	Rear axle 12J x 18 ET 30mm
991: Front axle 10,5J x 18 ET 28mm	Rear axle 12J x 18 ET 53mm
992: Front axle 12J x 18 ET 23.5mm	Rear axle 13J x 18 ET 44.5mm
GT4: Front axle 9J x 18 ET 41mm	Rear axle 10,35J x 18 ET 47.5mm

2.7.2 Wheels

The use of any other wheels than the originally specified wheels is prohibited.

Only the use of valve caps mentioned in the respective spare parts catalogue is permitted and they must be fitted for all sessions at all events.

The rims are permitted to be painted. It is prohibited to paint or treat any functional surfaces (rim bed, contact area of wheel nut, mounting surface of the wheel). Wheel rims are not permitted to be repaired.

At the friction strips on the inside of the rim must stay functional and must not be treated in any way.

- 992:** All wheels must be fitted with original type of tyre pressure / temperature sensors.

2.7.3 Tyres

Only the version of Michelin tyres approved for the Series with the following specification and supplied by the official supplier specified by the Series Organiser is permitted to be used for the duration of the events and the official test.

No other tyres are permitted on pitlane

997.2: Slick tyres

Front 25/64-18 (Porsche Cup N2)

Rear 30/68-18 (Porsche Cup N2)

Rain tyres

Front 25/64-18 (P2L)

Rear 30/68-18 (P2L)

991: Slick tyres

Front 27/65-18 (Porsche Cup N2)

Rear 31/71-18 (Porsche Cup N2)

Rain tyres

Front 27/65-18 (P2L)

Rear 31/71-18 (P2L)

992: Slick tyres

Front: 30/65 R 18 Porsche Cup N3

Rear: 31/71 R 18 Porsche Cup N3R

Rain tyres

Front: 30/65 R 18 P2L

Rear: 31/71 R 18 P2L

GT4: Slick tyres

Front: 25/64 R 18 Porsche Cup N2

Rear: 27/68 R 18 Porsche Cup N2

Rain tyres

Front: 25/64 R 18 P2L

Rear: 27/68 R 18 P2L

Tyres have been individually serial numbered at the factory and these numbers will be used at Events as follow-up record numbers.

During the race weekend, the competitor is allowed to use compliant slick tyres as follows:

- For qualification and races, all those slick tyres that have been added in the tyre tracking log during the season
- During free practice and warm-up sessions, the use of slick tyres is not restricted
 - Those tyres are not required to be tracked in the tyre tracking log

The number of wet tyres is unlimited

Use of mixed set (slick and wet) is prohibited

For qualification and races, it is the competitors responsibility to use only the slick tyres marked in the tyre tracking log.

At the beginning of the season, all competitors who have participated in the series and paid the fee will be entitled to purchase two sets of new slick tyres in their first race of the series, even if they come in the middle of the season.

For each subsequent race weekend, the competitor will be allowed to purchase one additional set of new slick tyres.

A competitor who does not participate in the entire series, but only in one event, may use only one set of new slick tyres per event.

In case of tyre damage, the damaged slick tyre can always be replaced without penalty with another slick tyre marked in the tyre tracking log.

Competitors taking part in a single event only is allowed to replace the damaged one slick tyre with a tyre that has not been recorded in the tyre tracking log. In case if this driver needs more tyres, the penalty will be 10-sec / tyre in addition to his/her race time at the next start.

If the marked tyres are not enough during the season and a new unmarked tyre is needed, the penalty is 10-sec / tyre in addition to his/her race time at the next start.

Replacing a damaged tyre with a tyre that is not marked in the tyre tracking log should always be approved by Technical Scrutineers. The serial numbers of the replacement tyres must be recorded in the tyre monitoring log kept by Technical Scrutineers.

Any slick tyre which has been damaged and replaced during the race due to tyre damage must be taken with the car to Parc Fermé and presented to the Technical Scrutineers. After this, the damaged tyre must be taken to the Michelin tyre expert for inspection. Otherwise deflated slick tyres should be delivered A.S.A.P. with the rim to Michelin tyre expert for inspection, who will locate the leak. A leaking wheel does not give the right to purchase a new tyre, the leak will be repaired or the tyre will be fitted to another rim if necessary.

Only a tyre manufacturing defect give the right to purchase a new tyre without penalty.

In the Parc Fermé area, Technical Scrutineers inspect the tyres and compare them to a tyre tracking log. The competitor must not leave Parc Fermé area without the Technical Scrutineers permission.

The numbers of the new slick tyre set for each event must be submitted to the Technical Scrutineers well in advance of the start of the qualification. Numbers must be submitted with the official "Tyre tracking log". (Attachment 15)
The logs will be filed by the Technical Scrutineers.

In all other cases, not regulated by these tyre regulations, please contact the Technical Scrutineers who will make the decision.

The tyre tracking log Attachment 15.

Dr. Ing. h.c. F. Porsche AG suggests that all Competitors follow the recommendations and instructions of Michelin regarding tyre pressures and set-up. Only atmospheric air is permitted to be used to inflate the tyres. It is not permissible to rotate the tyres on the rims. It is permitted to refit tyres, but the refitting must be performed by the official tyre supplier.

Should the tyre manufacturer prescribe a rotational direction for its tyres, then any departure from the manufacturer's recommendation is prohibited.

2.7.4 Tyre marking

Throughout these regulations any reference to the marking of tyres includes the procedure of electronically scanning and recording the individual bar codes of tyres.

Furthermore, the competition numbers must be displayed clearly on each tyre.

2.7.5 Ordering of tyres

The tyres for the relevant event must be ordered from the official tyre supplier at least ten working days before the start of the competition (ISC Art 2.1.7.a refers) using the official order form.

2.7.6 Free practice / Official practice

For the free and official practice session, the use of Michelin slick tyres is not restricted.

2.7.7 Qualifying and race

Only the version of Michelin tyres approved for the Series and correspondingly marked are permitted to be taken into the pit lane.

2.7.8 Guest Drivers

Competitor taking part in a single event only is authorized to use only one set of new slick tyres per Event.

2.7.9 Non-Permanent Drivers

As tyres are allocated to a competition number and not to a Driver, the tyre rule for already entered competition numbers applies.

2.7.11 Tyre damage

See 2.7.3 Tyres

2.7.12 Treatment

Any chemical, mechanical or thermal treatment of the tyres is prohibited. Cleaning of the rims is permitted. The mechanical removal of rubber abrasion and stones is permitted. The usage of heat guns or any similar devices of any kind to help the removal of rubber abrasion and stones ("tyre scraping") is prohibited. The use of heated covers, materials or other means of changing or preserving the temperature of the tyres is prohibited for the entire duration of an event. From the time of the pre-start until the end of any session, approved tyres are not allowed to be covered. This applies for slick as well as rain tyres.

2.7.13 Tyre logs

Before the qualifying session, the Competitors must provide the Technical Scrutineers with the completed tyre tracking log where the new slick tyre numbers, if any, have been marked, which are to be used during qualification and races.

The tyre tracking log (with the Technical Scrutineers signature) applies only slicks used in Qualification and Race starts.

During free practice and warm-up there is no tyre tracking.

No record for the wet weather tyres will be kept.

Complete tyre tracking logs of used slick tyres for each competitor will be available at the scrutineering place.

Any discrepancy between the listed barcodes and the barcodes of the tyres must be communicated by the Competitor to the Technical Scrutineers in writing no later than one hour before the beginning of pre-start for the session in which the respective tyres may be used for the first time.

If there is no such communication, this will be deemed as implicit acceptance of the received tyre logs.

No tyre is permitted to be used that is not listed on a tyre log for the relevant car.

2.8 Bodywork and dimensions**2.8.1 General description**

The body has to be original and the use of alternative parts is prohibited.

No changes are permitted to the body

991: Only front underbody cover 991.504.601.8B is permitted. Front underbody cover 991.504.601.8A is not permitted, even if the vehicle was fitted with it on delivery. (Tech info Appendix 11)

991: Side radiator mesh. The small cooling openings of the side radiators must be covered with a protective net according to the spare parts catalog. Alternatively, mesh as stated in Technical Information 13/2018 is permitted. The wheel arch side of the radiator can be protected from stones with a mesh

2.8.2 Wheelbase

Wheelbase of car measured at the centres of the wheel hubs.

997:		2355mm	+ / - 10mm
991:	991/1	2460mm	+ / - 15mm
	991/2	2456mm	+ / - 15mm
992:		2468mm	+ / - 15mm
GT4:		2476mm	+ / - 15mm

2.8.3 External bodywork (including windows)

The delivery status of the bodywork must be preserved.

2.8.4 Windscreen

As a replacement to the original part, a heated windscreen as shown in the spare parts catalogue is permitted. The windscreen is permitted to be connected to the electrical system of the car and the heating function is permitted to be used.

To protect the windscreen and as a safety measure, 'tear-off' screens are permitted to be attached to the windscreen. Fitting will be checked during technical scrutineering and must be removed where applicable on request of the Technical Scrutineers.

2.8.5 Side and rear windows

Only the genuine side and rear windows in their original version are permissible. Additionally, the rear window must remain fixed with the original type of fixing at all times. Covering the rear side window openings with clear, transparent tape during rain is permitted.

2.8.6 Cockpit

Each car has to be fitted with an info-plate in the dash that is visible in the roll cage mounted camera. The Organisation will provide the info-plate sticker. Mounting will be instructed to teams. (Attachment 5)

Seat

997.2 Use of original seats and installation is recommended. However, the optional seats are accepted if the following terms are fulfilled:

- Only FIA-approved seats with certification sticker and attachments are permitted
- The manufacturer declares that the seat is compatible with HANS
- No modification to the floor is permitted and original mounting holes have to be used in all cases

Seat rails and brackets must be cars original or optional ones approved by the seat manufacturer for seat used.

The seat attachment reinforcement plates provided by Porsche Motorsport must be welded to the chassis in case they do not exist. (GT3 Cup Tech info 13/2006)

If needed the seat can be installed max 30mm lower using Tech info instructions.

991: The seat must be the original Recaro seat, bearing the original corresponding spare part number. The installation parts must also be original with the corresponding spare part numbers. No modifications to the floor are permitted and the original installation holes must be used in any case.

The adaption of the seat by removing or adding of original Recaro seat padding is described in Attachment 11.

992: The seat must be the original Sabelt seat, bearing the original corresponding spare part number. The installation parts must also be original with the corresponding spare part numbers. No modifications to the floor are permitted and the original installation holes must be used in any case.

The adaption of the seat by removing or adding of original Sabelt seat padding shown in Attachment 12.

A foamed seat insert, according to FIA Appendix J, Article 253-16, may be used as long as the insert is made of fireproof material, coloured in black. The use or change is subject to approval by the Series Organiser/Technical Scrutineers.

The provisions of FIA International Sporting Code Appendix J Article 253 - 16 must be complied with at all times.

GT4: The seat must be the original Recaro seat, bearing the original corresponding spare part number. The installation parts must also be original with the corresponding spare part numbers. No modifications to the floor are permitted and the original installation holes must be used in any case. There are seat cushion inserts in size S, M and L for the Recaro P1300 GT seat. These can be procured from Recaro. Attachment 13.

Safetybelts

997.2: Original seat belts with corresponding parts numbers are recommended. However optional seat belts can be used if the following stipulations are fulfilled.

- FIA approved 6-point harness, correctly installed
- Each part of the harness bears the approval certificate label
- HANS-compatible according to the manufacturer
- Pelvis belt buckle must be free from the belt opening in the seat

991, 992, GT4: Seat belts must be original, with corresponding spare part numbers.

Ventilation in the passenger compartment

Only the factory-fitted ventilation pipe (NACA-intake on the front opening hood) is permissible for cockpit ventilation. The ventilation of the windscreen must not be affected. For additional ventilation of the passenger compartment only the existing original ventilation openings in the rear back windows are permissible.

Fresh air intake can be reduced by taping the front NACA opening.

Clear, transparent tape should be used.

Safety nets

997: Recommended to use a FIA approved net on the left side mounted according to net manufacturers instructions.

991.1: Mandatory to use a net on the left side. Safety net and the mounting according to 2017 model spare parts catalog.

991.2, 992, GT4: Every car must be equipped with the after-sales safety nets as specified in the valid spare parts catalogue and mounted in compliance with the official Dr. Ing. h.c. F. Porsche AG mounting instructions.

2.8.7 Additional roof hatch accessories

If the car has a roof hatch (to facilitate Driver extraction) which is connected to the roof via 7 livelocks and which must be accessible at all times (no foiling or painting of live locks is permitted).

2.8.8 Ground clearance of car

The minimum ground clearance of the ready-to-drive car (without the Driver in the car and slick tyres in compliance with Article 2.7, must not be less than the specified dimension. For the entire duration of the event the ground clearance of the car is to be minimum:

997: Front axle is to be a minimum of 67.0 mm and the clearance at the rear axle a minimum of 110.0 mm

991: Front axle is to be a minimum of 77.0mm and the clearance at the rear axle a minimum of 98.0mm

992: Front axle is to be a minimum of 71.0mm and the clearance at the rear axle a minimum of 104.0mm

GT4: Front axle is to be a minimum of TBA mm and the clearance at the rear axle a minimum of TBA mm

For the entire duration of the event the ground clearance of the car has to be as above. The measuring point locations are specified in Attachment 8, 9, 10. The ground clearance is permitted to be changed within the existing adjustment range.

The minimum ground clearance, as specified above, must be achieved with undamaged and unmodified mounting bolts or chassis components. The height of an undamaged and unmodified mounting bolt head will be defined by corresponding spare parts list. If the height of the mounting bolt heads fitted to the car during the ground clearance measurement measures different, the difference will be taken into account.

2.8.9 Measuring location and method

The measurement of the minimum ground clearance is conducted on the measuring plate in the technical scrutineering area. The measuring plate is available to the participating teams to check the minimum ground clearance at all times in consultation with the Technical Scrutineers.

The minimum ground clearance is checked using an appropriate height gauge for the axle to be measured in each case. The measurement is checked with the ready-to-drive car without the Driver on board, standing on the measuring plate. If the measuring gauges can be correctly accessed under the measuring points described above, the requirement to comply with the minimum ride height is satisfied. Any measuring tolerances will be taken into account by the Technical Scrutineers.

The Technical Scrutineers may at any time at their absolute discretion check the ground clearance measurement with any set of tyres allocated to the respective competition number and used during the session that the check is performed during or after. The Technical Scrutineers may also use instruments such as calipers or depth gauges to determine the car's ground clearance.

2.8.10 Failure to reach minimum ride height

Failure to reach the minimum ride height during the qualifying session may be penalised with the deletion of the times achieved by the Driver concerned. The Driver may be permitted, however, to take up the race from the last place on the starting grid. Failure to reach the minimum ride height in the race may result in disqualification from the points classification for the race.

2.9 Aerodynamic devices

The original position of the wing section is permitted to be changed within the specified scope for adjustment provided by the Technical Manual.

It is permitted to tape over the full area of the headlight lenses with transparent Heli tape.

Taping over of any slots in the bodywork, wings or other permanent parts, joints and openings is not permitted.

Any alteration or amendment to cars outline and aerodynamic devices will render the car non-compliant with the Technical Regulations and may be subject to penalties from the Stewards.

2.10 Electrical equipment General description

Optionally, the usage of the following electrical equipment from the spare parts catalogue is permitted: AS SENSOR GPS

It is not permitted at any time for any Competitor to read any sensors, with any equipment, which are not allocated to the Competitor's own team. Any Competitor breaching this regulation may be disqualified from the relevant session, race, or competition.

2.10.1 Data transfer

The use of radio-based information transmission in the car (e. g. telemetry) is forbidden, the only exception is the usage of the built-in tyre pressure monitoring system, which uses radio transmission for its functionality.

2.10.2 Radio system

Radio system is mandatory between car and pit. Radio communication between drivers (including through the pit) is prohibited. The Teams/drivers are responsible for ensuring that each driver's radio connection is on a different frequency, including within the team. Radio communication between drivers (including through the pit) is prohibited. The Teams/drivers are responsible for ensuring that each driver's radio connection is on a different frequency, including within the team.

Should the radio system not be operational by the start of a session (official practice, qualifying and race), the Race Director may prohibit the car concerned from participating in the session until the radio is operational.

Malfunctions or damage to the system must be reported immediately to the Technical Scrutineers. The choice of hardware for radio reception from the "Earplug" port to the Driver is optional but must be checked and approved by the Technical Scrutineers. Further modifications to the radio system are not permitted. Extra equipment is only permitted to be coupled with the radio system by the Series Organiser.

When mounting fixed speakers in the Driver's helmet, the FIA helmet regulations must be strictly observed.

In the case of any ambiguity, the Driver/ Competitor must produce proof that the components used are suitable for use in the car (fire prevention, etc.).

On written request by the Competitor, the Series Organiser can also release the communication between team and Driver. The Series Organiser has the right to listen to voice radio communication between the team and the Driver separately.

Installation of the radio system should be done according to cars technical manual and be approved by the Technical Scrutineers.

2.10.3 Data recording

997: Use of an aftermarket data recording system allowed.

991, 992, GT4: Use of the factory-fitted data recording system manufactured by COSWORTH is compulsory. The COSWORTH system is assigned to the car's chassis number and must not be exchanged.

Only the setups approved by Porsche AG are permitted to be used for the duration of the event.

All recorded data relating to the competition must be made available to the Technical Scrutineers and/or the Series Organiser including service providers.

Any additional electrical connection to the car's wiring harness is not permitted. Installations set up by the Series Organiser are exceptions to this rule.

Where the Series Organiser requires an additional part or system to be fitted for development purposes, the Competitor is not permitted to access any of the associated data unless specific agreement is given in writing by the Series Organiser.

2.10.4 Timing Transponder

The timing transponder must be mounted as shown in Attachment 14.

2.10.5 Cameras

Only in-board or on-board cameras which have been approved by the Series Organiser for legal sporting matters and TV purposes are permitted to be used. All participants are obliged to fit and use the TV cameras assigned by the Series Organiser in the respective car at the defined place according to the Series Organiser standards. Installation shall take place in the team's working awning by trained personnel of the Series Organiser staff.

The memory cards can only be removed from the cameras by the personnel nominated by the Series Organiser.

Any breach of this regulation, or any other unauthorised interference with the camera system can result in the Competitor and Driver being disqualified from the competition.

For image rights and copyright, see Art. 16 Part 1: Sporting Regulations.

The camera system provided by the Series Organiser fully remains the property of Series Organiser at all times. Any damage to the camera system will be repaired at the expense of the initiator of the damage / Competitor.

In-car cameras are permitted if they are attached safely to roll cage. Must be secured with a metal wire.

The Organiser should be able to copy the camera's memory cards immediately after each session.

Outside cameras are not recommended, but are permitted as long as they are safely mounted. These cameras should be small and obscure, close to the car body, and not to protrude outside the car outlines when looking from above. The camera cannot be mounted on an arm and the max distance including mounting, from the mounting surface is 50mm. Must be secured with a metal wire.

All cameras must be mounted during scrutineering.

2.10.6 Battery

997.2, 991: The battery has to be original size, with the original mounting, and in its original position.

The terminals must be protected to prevent short circuits. Tape alone is not enough for protection.

The use of Lithium batteries is prohibited.

992, GT4: The battery must be the original with the corresponding car part number.

It should be in the original mounting and its original position.

2.10.7 Lights

997.2: The central brake light must be wired to operate as the rear fog light and the original rear fog light to be disconnected. (GT3 Cup Tech info 5/2010)

2.11 Miscellaneous**2.11.1 Seals**

The following seals may be affixed at the works

Engine

Valve cover, left (1x) Valve cover, right (1x) Oil pump bottom (1x)

Engine control unit: Connector for control unit wiring harness (2x), mandatory.

If seals and marks are applied to the car by the Technical Scrutineers or Porsche, these must not be damaged, changed or reproduced.

If one or more damaged or missing seals or markings are discovered, the car may be disqualified from the event.

If any of the seals on the engine control unit are opened to allow welding work to be carried out it has to be resealed, without being requested to do so. The removed seal(s) must be handed over to the Technical Scrutineers.

Seals that have fallen off during the race or are damaged must be notified to the Technical Scrutineers in writing no later than one hour after closure of the "Parc Fermé".

2.11.2 Electronic car configuration

Throughout each event, the car with ABS must be run with the following configuration settings:

- traction control and ABS variant "Basis" and the logged channel "log_car_variant" with the value "1" visible in the display
- exhaust system setting on standard with "CW_SILENCE" visible in Racecon" and the logged channel "B_silence_pt" both with the value "0"

2.11.3 Additional fixation of 992 rear brake air duct

It is permitted to secure the two halves of the air duct element (part numbers 9F1.615.457, 9F1.615.458, 9F1.615.447 and 9F1.615.448), using a maximum of 3 cable ties around each element, to prevent their separation.

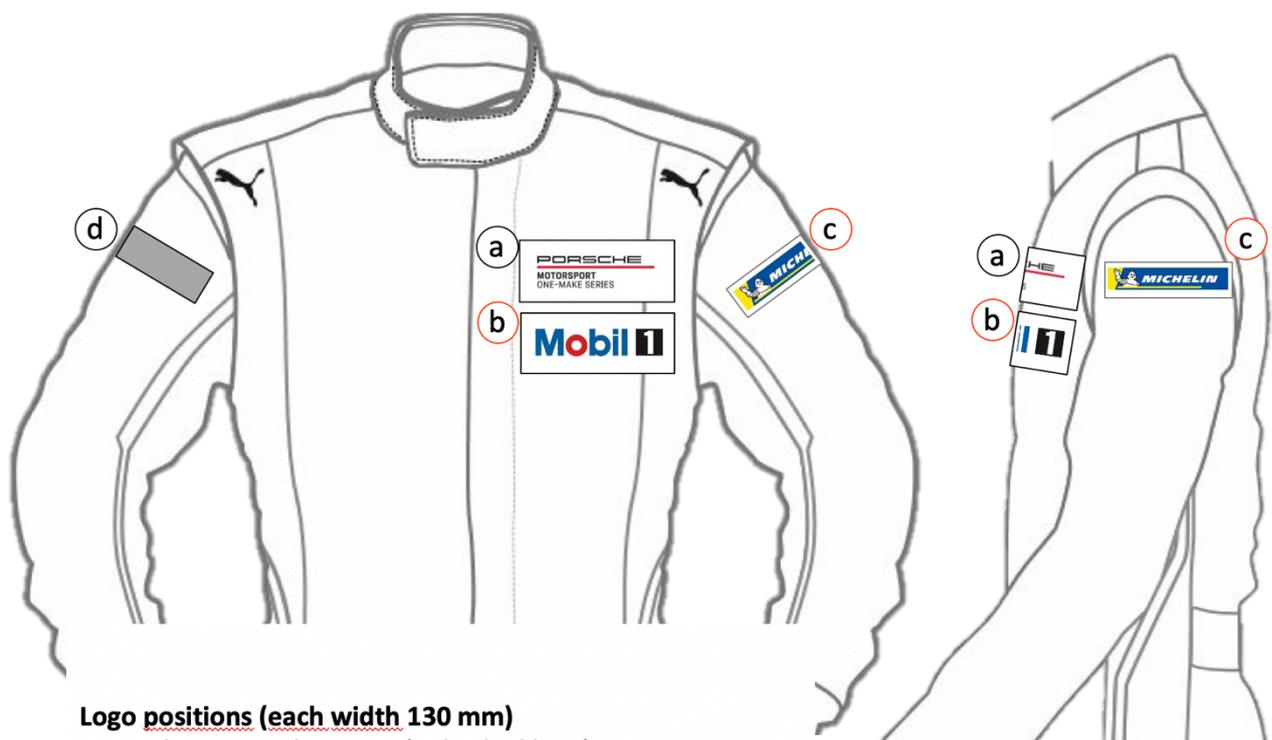

Part 3: Attachments / drawings

Attachment 1 – Badge Regulations 2022*

In due time prior to the first event, all Competitors entered for the 2022 Series will receive an adequate number of the obligatory badges for their Drivers' racing overalls. All obligatory badges must be sewn onto the Drivers' overalls in accordance with the specifications below.

Any affixing of badges onto overalls must be done in a professional manner and in compliance with ISC Appendix L Chapter III Article 2.

The following positions must be used for the affixing of obligatory badges:

Logo positions (each width 130 mm)

- a** Porsche One Make Series (individual logo)
- b** Mobil 1 Logo (challenges and trophies as per local contract)
- c** Michelin Logo (challenges and trophies as per local contract)

Please note:

1. The obligatory stickers are to be obtained from the local Porsche series organisation only.
2. The minimum space between stickers must be at least 30 mm.
3. The sticker positions 1-19 are strictly reserved for Porsche AG and its series and cooperation partners.
4. Usage of current or historic livery of Porsche Motorsport works racing vehicles is reserved for Porsche AG.

Exclusivity Rule

Advertising of team partners that compete to partners of Porsche AG, Porsche Carrera Cup, Challenges or Trophies and/or cooperation partners shall be prohibited. In regards to the exclusivity of the partners of Porsche AG following rules apply.

The exclusivity rule refers to the industry sector or to the product range of a manufacturer.

1. Mobil 1 is the exclusive partner of the Porsche Carrera Cups worldwide for lubricants, thus prohibiting teams to communicate or advertise for companies or products that are competitors of Mobil 1 lubricants.

For the area of fuels, teams are allowed to communicate or advertise for other companies under the following conditions and on request of Porsche AG:

- The product brand "fuel" has to be clearly distinguishable from the company brand, e.g. "V-Power" or "Ultimate".
- A maximum of one team with 3 race cars may communicate or advertise for one fuel brand. The date of the contract signing is pivotal.

2. Michelin is the exclusive partner of the Porsche Carrera Cups worldwide and as per contract for several Challenges & Trophies. Therefore it is forbidden to teams to communicate or advertise for companies or products that are competitors of Michelin.

3. HUGO BOSS is the exclusive partner of the Porsche Carrera Cups and Sprint Challenges worldwide regarding apparel and team wear.

The exclusivity is limited to the relationship with Porsche, not to the advertising space on the race cars, which is available to customer teams.

This means, teams can still show their own apparel partner on the car, as long as the HUGO BOSS logo is on the car as well.

Furthermore, a maximum of four race cars per series may be exempted from the obligation to show the HUGO BOSS logo, decision of exemption is up to market

4. TAG Heuer is the exclusive partner regarding watches and jewellery. The exclusivity is limited to the relationship with Porsche, not to the advertising space on the race cars, which is available to the customer teams. This means teams can still show their own chronographs, professional timekeeping pieces, wall clocks and other timing equipment partner on the car, as long as the TAG Heuer logo is on the car as well.

Furthermore, a maximum of four race cars per series may be exempted from the obligation to show the TAG Heuer logo, decision of exemption is up to markets.

There is no exception for partners of exclusivity.

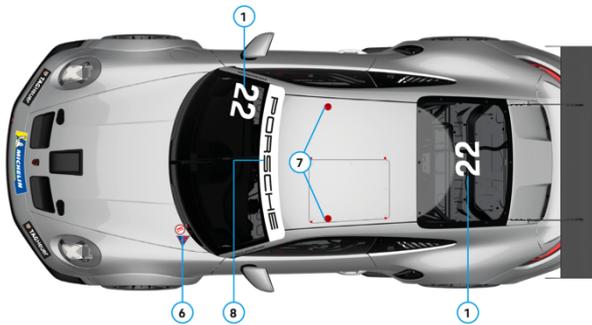

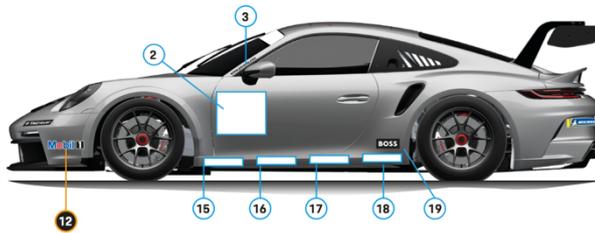

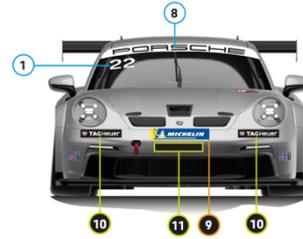

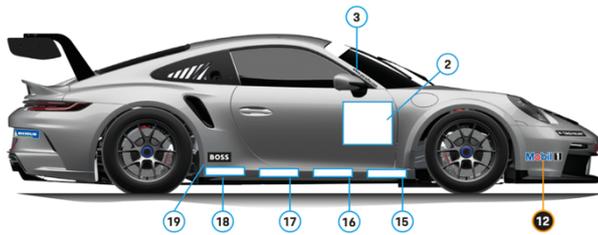

For questions or additional information, please contact the Porsche Motorsport Business Relations team, Mr Bernd Simmendinger (bernd.simmendinger@porsche.de) or Ms Andrea Hagenbach (andrea.hagenbach@porsche.de).

Attachment 11 – 991 Seat padding

Homologationsrelevant: 5x Polster dürfen nicht verändert, weggelassen oder aufgepolstert werden, erhältlich in drei Größen
Homologation relevant: 5x paddings, must not be changed, removed or upholstered, available in three sizes

Nicht Homologationsrelevant: 6x Polster dürfen verändert, weggelassen oder aufgepolstert sowie durch geschäumten Sitzeinsatz ersetzt werden, erhältlich in drei Größen
Not homologation relevant: 6x paddings, may be changed, removed or upholstered as well as replaced by a foamed seat insert, available in three sizes

Homologationsrelevant: 2x Polster dürfen nicht verändert oder weggelassen werden, Aufpolsterung erlaubt
Homologation relevant: 2x paddings, must not be changed or removed, Upholstery allowed

The adaption of the seat by removing or adding of original **Recaro** seat padding is forbidden in the areas of the seat shown in green colour on the illustration above.

Any modification of the seat padding shown in green colour is strictly prohibited. The use of the different sizes paddings is permitted, also in the areas shown in green colour, as long as they are not modified.

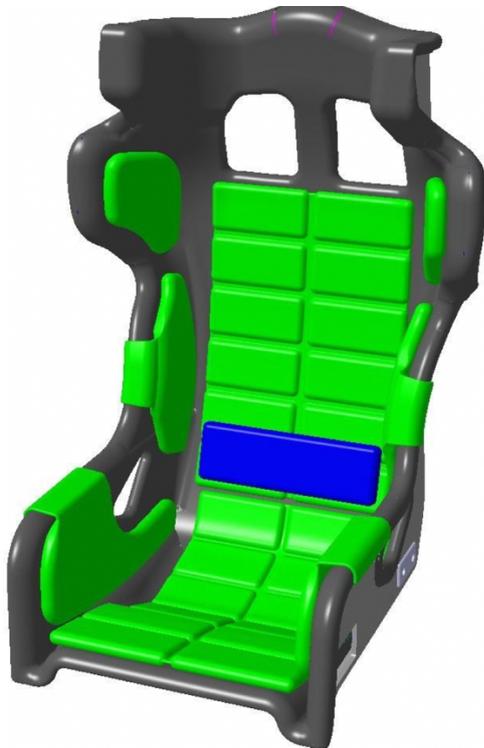

Upholstery in the bottom part of the seat on top of the paddings shown in green (see illustration above) is permitted, as long as the original padding is not modified or removed.

Upholstery of the areas shown in yellow colour on the illustration above is permitted by either using original Recaro paddings or using a foamed seat insert, as long as the insert is made of fireproof material, coloured in black and its maximum thickness at any point does not exceed 50 mm in size.

The preferred supplier for padding components is the seat manufacturer (Recaro). The original seat mounting (seat rails and bracket) must be retained and must not be modified.

The use or change is subject to approval by the Technical Scrutineers.

Attachment 12 – 992 Seat padding

The adaption of the seat by the addition of original **Sabelt** seat padding shown in green and blue in Attachment 12 is permitted . Each padding shape may only be used in the specific and correct location and direction as shown in Attachment 12.

Additional padding at the head rest can only be added in accordance with the following conditions and the Technical Scrutineers' discretion:

- The foam used for the padding must be the same material as the one used on the head rest by the seat manufacturer.
- The padding must be properly fixed to the seat.

Any addition or removal of material below the surface shown in black is forbidden.

Any modifications or addition of paddings outside of the prescriptions above must be presented to the Technical Scrutineers for approval.

A foamed seat insert, according to FIA Appendix J, Article 253-16, may be used as long as the insert is made of fireproof material, coloured in black. The use or change is subject to approval by the Series Organiser/Technical Scrutineers.

The original seat mounting (seat rails and bracket) must be retained and must not be modified.

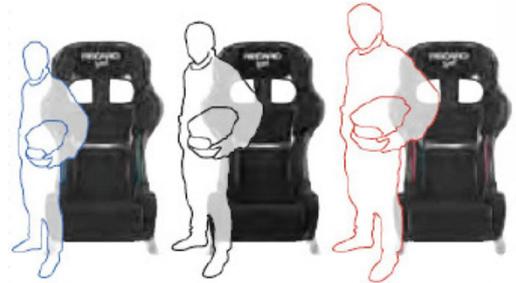

The provisions of FIA International Sporting Code Appendix J Article 253 - 16 must be complied with at all times.

Attachment 13 – GT4 Seat padding

Padding system

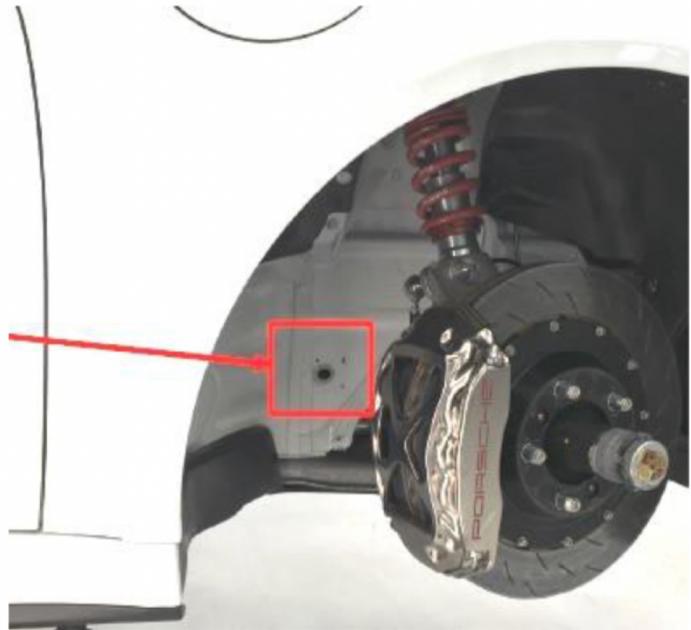

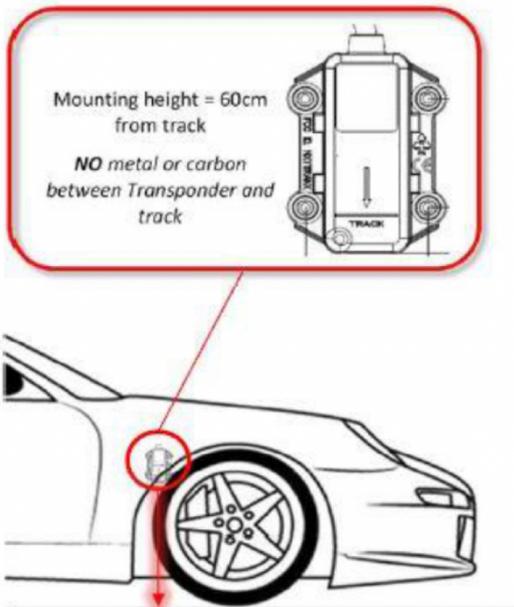

There are various seat cushion inserts for the Recaro P1300 GT seat. These can be procured from Recaro (see *CONTACTS* on page 839). The seat insert in the bucket seat provided as standard when the car is delivered is size M.

Seat insert size	Seat insert thickness
S	30 mm
M	20 mm
L	10 mm

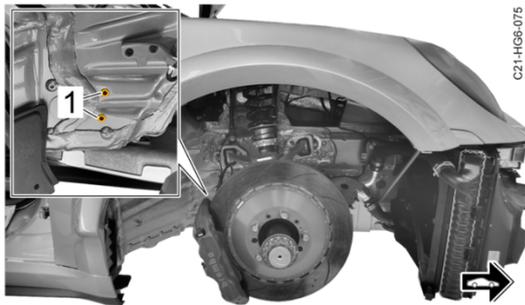

Attachment 14–Timing Transponder Position:

991

992

Attachment 15: Tyre tracking log

Tyre Tracking 2022 Slick Tyres

Porsche Sprint Challenge NEZ

Date	Race Track	Competition Number
Driver's Name		
New Tyre Number for this Race		
1		
2		
3		
4		
Sections 5-8 will only be completed in the first race of the season		
5		
6		
7		
8		
New tyre number after a damage		
Signature of Driver or Crew Chief		

This form must be completed and returned to Technical Scrutineering before Qualifying

Attachment 16 – Car weights

1. a) Total minimum weight, TMW (The number specified by the rules. “Car ready to drive + driver including driving gear.”)
- b) Car’s Factory minimum weight, FMW (Car ready to drive)
- c) Driver minimum weight, DMW (driver including driving gear)
- d) Calculated car’s minimum weight during the Event, CMW (TMW – DMW)

			TMW	CMW
997.1	MY 2005 - 2009		No driver weighing	1170 kg
997.2	MY 2010 - 2013		No driver weighing	1200 kg
991.1	MY 2013 - 2016		No driver weighing	1225 kg
991.2	MY 2017 - 2020	Pro	1345 kg	1225 kg
991.2	MY 2017 – 2020	Gentleman	1315 kg	1225 kg
992	MY 2021 –	Pro	1395 kg	1295 kg
992	MY 2021 –	Gentleman	1350 kg	1295 kg
GT4	MY 2019 -		No driver weighing	Model version minimum weight

2. After the preliminary scrutineering, during the Event, only the car will be weighted.
 The calculated car’s minimum weight will be used (TMW – DMW = CMW).
 In any case can’t the calculated car weight be less than the Factory minimum
 The scales at the Event are decisive even if they show a little different reading than competitors' scales used at home.
 Entrants have the opportunity to check the weight of their cars with the official scale before the start of Qualification.
 Total minimum weight (TMW) is not indicated for a few car models. Then the minimum weight of the car during the Event is always the minimum weight stated by the Factory (FMW).
 GT4 have several different Homologation versions, each with its own minimum weight.
3. If, during any post session weighing procedure, the car is found to be below the currently applicable minimum weight, the Chief Scrutineer will be summoned. The car will be weighted three times, the scales zeroed between each weighting and having tyres in the middle of scale elements. The final car weight is the average value of these three weights. If this final figure is below the car’s minimum weight the matter will be reported to the Stewards for their handling.
4. The tolerance of the car scales is 2kg.

Attachmentx 17 – Alternative Part Number Reference Table

Part	Number	Alternative Number (previous model)
