8. SERVICE

There are two service breaks along the route, both min.30 minutes.

PLEASE NOTE:

Smoking in the Service area is forbidden. It is forbidden to use charcoal or gas grills. Open fire is not allowed.

Only rally cars and one service car per crew with the service car identification are allowed into the service park. Service car identification is in the material package. **Bringing recce cars into the service area is strictly prohibited!**

The ground of service area A is covered with artificial grass so it must be protected well. Under car jack must be used plywood sheets with min size of 100x50cm and thickness 18mm, and under heavier car jacks plywood sheets min 100 mm larger and 18mm thick than car jacks dimensions. Plywood sheets prevents jack from sinking into artificial grass.

Competitors and their service crews are expected to handle fuel, oil, and other liquid substances very carefully. Ground protective sheets/tarpaulins must be placed under rally car and service car whenever servicing the rally car under pain of exclusion.

In Service area B competitors and their service crews must place ground protective sheets/tarpaulins under rally car and service car whenever servicing the rally car under pain of exclusion. A fire extinguisher (minimum 6 kg) must be on hand at all times.
