Poikkeuksen myöntäminen ajoneuvon rakenteesta ja varusteista

Liikenteen turvallisuusvirasto (Trafi) on AKK-Motorsport ry:n tekemästä hakemuksesta, valtioneuvoston asetuksen ajoneuvojen rakenteesta ja varusteista (1270/2014) 23 §:n sekä ajoneuvojen käytöstä tiellä annetun asetuksen (1257/1992) 53 §:n nojalla päättänyt, että hakijan järjestämissä tiellä ajettavissa rallikilpailuissa saadaan autojen ja perävaunujen rakenteesta ja varusteista annetun asetuksen liitteen 1 osan I taulukon alaviitteen 66 alakohdan d) ja liikenne- ja viestintäministeriön asetuksen ajoneuvon renkaiden nastoista (408/2003) sekä ajoneuvojen käytöstä tiellä annetun asetuksen 17 § 5 momentin estämättä käyttää seuraavilta osin poikkeavia nastarenkaita:

1. Nastoja on kiinnitetty myös renkaan kulutuspinnan leveyden keskimmaiselle kolmannekselle;
2. Nastojen ulkonema ylittää ajoneuvojen käytöstä tiellä annetun asetuksen 17 § 5 momentissa ja liikenne- ja viestintäministeriön asetuksen ajoneuvon renkaiden nastoista 2 § 3 momentissa säädettyt mitat;
3. Nastojen lukumäärä ja pistovoima ylittävät liikenne- ja viestintäministeriön asetuksen ajoneuvon renkaiden nastoista 2 § 1 momentissa ja 3 § 2 momentissa määrätyt arvot;
4. Renkaissa käytetyt nastat eivät ole liikenne- ja viestintäministeriön asetuksen ajoneuvon renkaiden nastoista 3 §:ssä määrätyn mukaisesti hyväksytyjä.

Hakijan järjestämissä, kilpailukalenteriin merkityissä, tiellä ajettavissa rallikilpailuissa saadaan käyttää lisäkaukovalaisimia, jotka poikkeavat määrän, valotehon ja hyväksynnän osalta autojen ja perävaunujen rakenteesta ja varusteista annetun asetuksen liitteen 1 osan I taulukon kohdan 20 vaatimuksista. Autojen tuulilasien yläreunaan saadaan edellä mainituissa kilpailuissa kiinnittää 100 mm:n korkuisia tarroja ottamatta huomioon taulukon kohdan 32 ja alaviitteen 52 vaatimuksia.

Tämä päätös on voimassa seuraavin erityisehdoin:

1. Tämän päätöksen tarkoittamia nastarenkaita saadaan käyttää vain hakijan järjestämissä kilpailutapahtumissa ja tällöinkin edellyttäen, että tienpitäjä antaa siihen luvan.
2. Käytettävän nastan kokonaispituus saa olla enintään 20 mm, nastan rungon halkaisija enintään 9 mm ja nastan paino enintään 4 g. Nastan kärkiosan poikkileikkauksen tulee olla likipitään pyöreä ja kärkiosan halkaisijan vähintään 2,5 mm.
3. Nastojen suurin lukumäärä renkaassa saa olla enintään 20 kpl renkaan kulutuspinnan pituusdesimetriä kohti.
4. Renkaina saadaan käyttää vain yleiseen tieliikenteeseen hyväksytyjä renkaita.
5. Päätöksessä tarkoitettuja lisävalaisimia saadaan pitää päällä ainoastaan rallikilpailujen erikoiskokeilla.
6. Päätöksen nojalla asennetut valaisimet ja tarrat tulee poistaa välittömästi kunkin kilpailun päätyttyä, jos autoa käytetään tieliikenteessä.

Tämä päätös on voimassa 31.12.2019 saakka, mutta se voidaan aiemminkin perua, jos sen lupaehtoja rikotaan tai muuta syytä siihen ilmenee. Jäljennös tästä päätöksestä on esitettävä tiedoksi kilpailuja valvovalle poliisiviranomaiselle sekä kilpailuihin osallistuville. Osallistujien tulee pitää jäljennös päätöksestä ajossa mukana kilpailutapahtumien ajan.
