RE-FUELLING DURING EVENT

Re-fuelling is allowed in gas station marked in Road Book and only between points there marked. Also re-fuelling from own containers is allowed. There is two (2) zone for re-fuelling; one in Service Park and one in gas station, SEO Heinävaara. In re-fueling zone competitor needs to follow regulations.

SAFETY CHECKING

Rally car numbers needs to be fixed when arriving to Safety Check. Car needs to have also normal tyres, rally tyres not allowed.

- Classes 1-17
Time for Safety Check needs to be pre- reserved from Slotti system latest 26.2.2019 at 22.00. <https://slotti.fi/booking/rallism/>
- Classes 18 - 26
On Saturday according time plan below:
Numbers : 80 - 100 klo 8.00 - 8.30
Numbers 101 – 123 klo 8.31 - 9.00

Safety Check will end on Friday at 20.00 and on Saturday at 10.30.

During Safety check main object is to check all safety equipment of car and drivers, including HANS / FHRs

In Safety check competitor needs to present:

- Scrutineering document given by AKK (Finnish ASN) (not required from international competitors)
- Car homologation document
- Roll gage homologation document or certificati (if applicable)
- Registration document / Finnish traffic insurance document
- NOTE: you need to Finnish traffic insurance (and sticker plates) for rally car. Closes place to get the insurance and plates is Itä-Suomen Katsastuskeskus, Aspitie 9, 80100 JOENSUU, located app. 1km from Rally HQ. If any questions, please contact Timo Turunen +358 400 473 799

For fluent Safety Check we kindly ask competitor (or his authorized person) to present rally cars documentation latest 10minutes before own reserved time. There is no separate TC in Safety Check, document check desk is the TC

Scrutineering document will be given to competitor in here. After approved Safety Check, document will stay at organizer.

SEALING

Competitor or his representative needs to prepare all equipment ready to be sealed. Sealing wires needs to be in place. After adding the seals, parts will be added to scrutineer document.

DRIVERS EQUIPMENT

Drivers equipment are also checked during Safety Check.

MARKING OF TYRES (classes 1-6)

In Classes 1-6 it is allowed to use max 10 tires.

Competitor needs to give list of FIA codes from all tires which are used in event. List of tyre codes is as attachment in this document. Filled document needs to given to organizer latest at Safety Check, when showing cars documentation

If you do not have FIA coded tires, please contact Chief Scrutineer Mr. Timo Brilli (+358 400 420 458) He will give additional information for marking.

Technical check (after event) will be at RIVERIA Jukolankatu 18, JOENSUU

RESULTS

Official results will be published at notice board, starting from 18.15.

Poikkeuksen myöntäminen ajoneuvon rakenteesta ja varusteista

Liikenteen turvallisuusvirasto (Traficon) on AKK-Motorsport ry:n tekemästä hakemuksesta, valtioneuvoston asetuksen ajoneuvojen rakenteesta ja varusteista (1270/2014) 23 §:n sekä ajoneuvojen käytöstä tiellä annetun asetuksen (1257/1992) 53 §:n nojalla päättänyt, että hakijan järjestämissä tiellä ajettavissa rallikilpailuissa saadaan autojen ja perävaunujen rakenteesta ja varusteista annetun asetuksen liitteen 1 osan I taulukon alaviitteen 66 alakohdan d) ja liikenne- ja viestintäministeriön asetuksen ajoneuvon renkaiden nastoista (408/2003) sekä ajoneuvojen käytöstä tiellä annetun asetuksen 17 § 5 momentin estämättä käyttää seuraavilta osin poikkeavia nastarenkaita:

1. Nastoja on kiinnitetty myös renkaan kulutuspuolelle leveyden keskimmaiselle kolmannekselle;
2. Nastojen ulkonema ylittää ajoneuvojen käytöstä tiellä annetun asetuksen 17 § 5 momentissa ja liikenne- ja viestintäministeriön asetuksen ajoneuvon renkaiden nastoista 2 § 3 momentissa säädetyt mitat;
3. Nastojen lukumäärä ja pistovoima ylittävät liikenne- ja viestintäministeriön asetuksen ajoneuvon renkaiden nastoista 2 § 1 momentissa ja 3 § 2 momentissa määrätty arvot;
4. Renkaissa käytetyt nastat eivät ole liikenne- ja viestintäministeriön asetuksen ajoneuvon renkaiden nastoista 3 §:ssä määrätyn mukaisesti hyväksyttyjä.

Hakijan järjestämissä, kilpailukalenteriin merkityissä, tiellä ajettavissa rallikilpailuissa saadaan käyttää lisäkaukovalaisimia, jotka poikkeavat määrän, valotehon ja hyväksynnän osalta autojen ja perävaunujen rakenteesta ja varusteista annetun asetuksen liitteen 1 osan I taulukon kohdan 20 vaatimuksista. Autojen tuulilasien yläreunaan saadaan edellä mainituissa kilpailuissa kiinnittää 100 mm:n korkuisia tarroja ottamatta huomioon taulukon kohdan 32 ja alaviitteen 52 vaatimuksia.

Tämä päätös on voimassa seuraavien erityisehdoin:

1. Tämän päätöksen tarkoittamia nastarenkaita saadaan käyttää vain hakijan järjestämissä kilpailutapahtumissa ja tällöinkin edellyttäen, että tienpitäjä antaa siihen luvan.
2. Käytettävän nastan kokonaispituus saa olla enintään 20 mm, nastan rungon halkaisija enintään 9 mm ja nastan paino enintään 4 g. Nastan kärkiosan poikkileikkauksen tulee olla likipitään pyöreä ja kärkiosan halkaisijan vähintään 2,5 mm.
3. Nastojen suurin lukumäärä renkaassa saa olla enintään 20 kpl renkaan kulutuspuolelle leveyden keskimmaiselle kolmannekselle.
4. Renkaina saadaan käyttää vain yleiseen tieliikenteeseen hyväksyttyjä renkaita.
5. Päätöksessä tarkoitettuja lisävalaisimia saadaan pitää päällä ainoastaan rallikilpailujen erikoiskokeilla.
6. Päätöksen nojalla asennetut valaisimet ja tarrat tulee poistaa välittömästi kunkin kilpailun päätyttyä, jos autoa käytetään tieliikenteessä.

Tämä päätös on voimassa 31.12.2019 saakka, mutta se voidaan aiemminkin perua, jos sen lupaehtoja rikotaan tai muuta syytä siihen ilmenee. Jäljennös tästä päätöksestä on esitettävä tiedoksi kilpailuja valvovalle poliisiviranomaiselle sekä kilpailuihin osallistuville. Osallistujien tulee pitää jäljennös päätöksestä ajossa mukana kilpailutapahtumien ajan.
