9.1.3 - Crews are obliged to have their passage checked at all points mentioned on their time card, and in the correct

order. The target time for covering the distance between two time controls will be shown on the time card.

9.3.3.2 Clocking the card can only be carried out if the two crew members and the car are in the control zone and in the immediate vicinity of the control table.

time-keeper marks on this card the actual time at which the card was handed in.

9.3.3.4 The target check-in time is the time obtained by adding the time allowed to complete the road section to the start time for this section, these times being expressed to the minute.

9.3.3.5 The crew does not incur any penalty for checking in before time if the vehicle enters the control zone during the target check-in minute or the minute preceding it.

9.3.3.6 The crew does not incur any penalty for being late if the act of handing the card to the time-keeper takes place during the target check-in minute; e.g. a crew who is supposed to check in at a control at 18h 58' shall be considered on time if the check-in takes place between 18h 58' 00" and 18h 58' 59".

b) for early arrival: 1 minute per minute or fraction of a minute.

9.3.3.8 Finally, if it is found that a crew has not observed the rules for the check-in procedure as defined above (and especially by entering the control zone more than a minute before the actual check-in time) the chief marshal at the control post must make this the subject of a written report to be sent immediately to the clerk of the course.

9.3.4 - Time of leaving control

9.3.4.1 If the next road section does not start with a special stage, the check-in time entered on the time card shall constitute both the arrival time at the end of the road section and the starting time of the following one.

9.3.4.2 Conversely, when a time control is followed by a start control for a special stage, the following procedure shall be applied:

a) These two posts shall be included in a single control area (see Article 9.2) whose signs shall be as follows:

- *yellow sign displaying a watch face*: beginning of zone,

- *red sign displaying a watch face*: time control post at a distance of approx. 25m,

- *red sign with flag*: start of special stage at a distance of 50 to 200m,

- *beige background sign with 3 transversal stripes*: end of control sign 50m further on.

b) At the time control at the finish of a road section, the post marshal will enter on the time card the check-in time of the crew together with its provisional start time for the following road section.

There must be a 3 minutes gap to allow the crew to prepare for the start.

c) Immediately after checking in at the time control the crew will go to the start of the special stage. The marshal in charge of this post will enter the provisional time for the start of the stage on the stage sheet, which usually corresponds to the provisional starting time for the road section. He will then start the crew according to the procedure laid down in the Regulations (see Article 9.5.4).

9.3.4.3 If a difference exists between the two entries, the starting time of the special stage will be binding, unless the stewards decide otherwise.

9.3.4.4. In the case of a flat tyre, an additional 5 minutes will be allowed for repairs.

9.3.5 - Disqualification

9.3.5.1 Any delay exceeding 15 minutes at the target time between two time controls, or a total delay exceeding 30 minutes at the end of each section and/or leg of the Rally, will result in the disqualification of the crew except where the provisions of Article 9.3.6 apply.

9.3.5.2 Under no circumstances may crews having exceeded their maximum delay attempt to reduce this delay by arriving early at controls, neither shall penalties for early arrival be taken into account when calculating any delay exceeding the maximum permitted delay which results in disqualification.

For example:

Road section A

Start 12h00 - target time 1h00 - check-in time 13h10'

Penalty for late arrival: 100"

Delay counting towards disqualification: 10 minutes

Road section B

Target time 1h30' - check-in time 14h20'

Penalty for early arrival: 1200"

Delay counting towards disqualification: 10 minutes (not combined)

Road section C

Target time 2h00' - check-in time 16h30'

Penalty for late arrival: 100 additional seconds

Delay counting toward disqualification: 10 minutes

Total road section controls A + B + C

Total penalties (for late and early arrivals): 100" + 1200" + 100" = 1400 seconds

Total delay counting toward disqualification: 10' + 10' = 20 minutes

9.3.5.3 The disqualification time may be increased at any point by the stewards, upon the proposal of the clerk of the course. The crews concerned shall be informed of this decision as soon as possible.

9.3.5.4 Disqualification for exceeding the maximum permitted delay may only be announced at the end of a section or at the end of a leg.

9.3.6 - Catching up (not applicable to the last leg)

9.3.6.1 Provision shall be made for a Driver who has missed, during a leg, a special stage or a circuit event and/or who did not check-in at the last time control of the leg, or place the car in Parc Fermé, to catch up and be re-admitted to the following leg. He will be given the worst overall time achieved in his category in that particular leg. If there are no finishers in his category then the next worst time in any appropriate category may be used. In all cases the penalty will be increased by a penalty of 60 seconds for each special stage missed.

He may be re-admitted to the following leg unless, prior to the posting of the classification for that leg, he informs the clerk of the course in writing of his intention to withdraw from the event. Those Competitors wishing to be re-admitted must report to the Parc Fermé 30 minutes before the start of the next leg.

The clerk of the course or stewards may order that the car be re-scrutineered.

This catching up is not applicable for the last leg of the Competition and in order to be classified, the car must have passed the last time control of the Competition within the time allowed.

9.3.6.2 The starting order for the newly admitted cars will be at the discretion of the clerk of the course.

9.4 - Regrouping controls

9.4.1 - Regrouping controls will be set up along the route. Their entry and exit controls shall be subject to the general rules governing the control posts (Article 9.2).

9.4.2 - The purpose of these regroupings will be to reduce the intervals which may occur between crews as a result of late arrivals and/or withdrawals. Thus the starting time from the regrouping control and not its duration must be taken into account.

For example: 120 cars at the start of the Rally - first regrouping of 4 hours - starting time from the regrouping control: 12h01:

a) *target time for the arrival of car No. 1 at the regrouping control: 8h01, target time for the arrival of car No. 120 at the regrouping control: 10h.*

b) *actual arrival time of car No. 1 at the regrouping control: 8h45, actual arrival time of car No. 120 at the regrouping control: 11h50 (60 cars have withdrawn during this part of the Rally).*

c) *starting time of car no. 1: 12h01, starting time of car no. 120: 13h00.*

The respective duration of stopping times should therefore have been:

- 3h16' for car No. 1

- 1h10' for car No. 120.

9.4.3 - On their arrival at these regrouping controls, the crews will hand to the post marshal their time card. The crews will receive instructions on their starting time. They must then drive their cars immediately and directly to the Parc Fermé. Engines must be stopped.

9.5 - Special Stages

9.5.1 - Special Stages are tests on roads closed specially for the event.

9.5.2 - During these events, all those in the car must wear, under pain of disqualification, approved crash helmets and flame-resistant overalls, according to Appendix L, Chapter III, Article 2 specifications.

9.5.3 - Crews are forbidden to drive in the opposite direction to that of the Rally, under pain of disqualification.

9.5.4 - Starts of special stages will be given as follows: when the car with its crew on board has stopped in front of the starting control, the marshal will enter the time scheduled for the start of the car in question on the stage sheet, and he will hand this document back to the crew. The start will be given by the marshals.

A penalty of 2 minutes shall be imposed on any crew which fails to start within 20 seconds of the starting signal.

9.5.5 - During the Rally, one «Slalom» stage may be run. The time stated in the present Regulations will be allocated to the crews, plus a penalty of 2 seconds for each displaced bollard.

9.5.6 - The start of the special stage may only be delayed in relation to the scheduled starting time by the post marshal in a case of «force majeure». In the event of a crew being late, the chief post marshal will enter a new time and the delay will then be considered as the delay recorded on a road section. It will therefore be taken into consideration for the calculation of the disqualification time.

9.5.7 - A false start, particularly one made before the signal has been given, is penalised as follows:

1st offence: 10 seconds,
2nd offence: 1 minute,
3rd offence: 3 minutes.

further offences: at the stewards' discretion.

These penalties do not prevent the stewards from imposing heavier penalties if they judge it necessary.

9.5.8 - Special stages will end in a flying finish, stopping between the warning sign and the stop sign being forbidden on pain of disqualification. Timing will be done on the finish line, which must have print-out equipment backed up by stop watches. At a distance of 200 to 300m after the finish, the crew must report to a control (Point Stop) indicated by a red 'STOP' sign to have its finishing time entered on the time sheet. If the timekeepers cannot give the exact finishing time to the marshals immediately, the latter will only stamp the crew's sheet and the time will be entered at the next neutralisation zone or regrouping control.

9.5.9 - If, due to a fault of the crew, the time entry cannot be made, the following penalties shall be imposed:

a) at the start: disqualification;
b) at the «STOP» (Stop Point): 300" time penalty.
9.5.10 - The times recorded by the crews in each special stage, expressed in hours, minutes, seconds and tenth of seconds (1/10), shall be added to their other penalties expressed in time.

9.5.11 - During a special stage, assistance is forbidden. Any breach of this rule will result in the offending Competitor being automatically excluded from the event by the panel of stewards.

9.5.12 - The start intervals for special stages must comply with the same dispositions as those laid down for the start of the leg in question.

9.5.13 - Termination of a special stage

When a special stage has to be definitively stopped for any reason whatsoever before the last crew has covered it, the results for the stage may be established by allocating to each crew who has been unable to complete the stage, the slowest time set before the termination. These results may be drawn up even if only one crew has been able to cover the stage in normal racing conditions. Only the stewards may apply this disposition after the clerk of the course has given the reasons for the termination. Should the stewards consider the slowest

time set as abnormal, they may take as the scratch time one of the four slowest times which seems the most suitable. However, no crew who is totally or partially responsible for stopping a stage may benefit from this measure. This crew will be given the time which it might have made if this is greater than the scratch time awarded to other crews.

9.5.14 - Any crew refusing to start in a special stage at the time and in the position allocated to it shall be given a penalty of 300".

9.5.15 - On special stages, the following rules apply:

a) If, during a special stage, a competitor is caught up by a faster competitor who gives headlight or horn signals, the slower competitor is obliged to let the faster one pass, even if he has to stop on the right or left side of the road, showing with the appropriate indicator that he is ready to be overtaken. Infringement may result in a fine or disqualification, depending on the decision of the stewards,

b) Stopping on or directly before or after a bend, or moving the car across the course or in a direction other than that of the Rally, is strictly forbidden. Drivers who have to stop for an emergency must stop their car at the side of the road and warn the Drivers following by appropriate means (e.g. red triangle),

c) If the road is blocked because of an accident, it must be cleared as soon as possible to allow safety vehicles or ambulances through. Damaged cars must be kept clear of the road until Rally officials have re-opened the stage to traffic.

Each infringement will result in a penalty which may go as far as disqualification.

9.6 - Parc Fermé

9.6.1 - Cars shall be subject to Parc Fermé rules:

a) from the moment they enter the starting area, a regrouping area or an end of leg, until they leave,

b) from the moment they enter a control area until they leave it,

c) from as soon as they reach the end of the Rally until the time for lodging protests has expired.

9.6.2 - While the vehicles are subject to Parc Fermé rules:

a) any repairs or refuelling are strictly forbidden, under pain of disqualification,

b) however, if the scrutineers note that a vehicle seems to be in a condition which is not compatible with the normal road use, they must immediately inform the clerk of the course thereof who may request that the car be repaired,

c) in this case, the minutes used to carry out the repairs will be considered as the same number of minutes' delay recorded in a road section. After repairs, the crew will possibly be given a new starting time.

9.6.3 - As an exception, and under the supervision of the competent marshal, the crew may, while in the Parc Fermé at the start, regrouping zone or end of leg:

- change a punctured or damaged tyre using the equipment on board,

- change the windscreen with the possibility of outside help.

These repairs must be completed before the starting time. otherwise a penalty shall be imposed in accordance with the provisions stated in Article 9.6.2.c.

9.6.4 - As soon as they have parked their cars in the Parc Fermé, the Drivers will leave the Parc Fermé and no crew member will be allowed to re-enter.

9.6.5 - To leave a Parc Fermé for the start, regrouping halt or end of leg, the crew shall be allowed to enter the Parc Fermé 10 minutes before their start time.

9.6.6 - If a vehicle is unable to move under its own power:

At a Parc Fermé at a start, regrouping halt or end of leg, only the officials on duty or the members of the crew are authorised to push a competing vehicle inside or at the entrance to or exit from a Parc Fermé at a start, regrouping halt or end of leg. An additional battery may be used to help to start the car but cannot be carried on board the car.

9.6.7 - Any infringement of the Parc Fermé Regulations shall (or, in the case of catching up, may) result in disqualification from the Rally.

9.6.8 - After the Rally, all cars which have crossed the last time control shall be driven, under the supervision of the

officials of the Competition, to a Parc Fermé where they shall remain for at least 30 minutes after the posting of the provisional results and until the stewards order their release.

Any classified car which is unable to cross the line and/or reach the Parc Fermé under its own power will immediately upon such disability occurring be placed under the exclusive control of the marshals and scrutineers who, as soon as this is possible, will conduct the car to the Parc Fermé. Cars which have not been placed in the Parc Fermé will not be classified.

9.6.9 - **Note!** For safety reasons, the fuel tank has to be as empty as possible when entering Parc Fermé (*Hansaparkki parking hall*) in the end of first leg.

10 - ADMINISTRATION AND CHECKING - PENALTIES

10.1 - Checking before the start and during the Rally

10.1.1 - Any team taking part in the Rally, must arrive at administrative checking with both the driver and co-driver. The following documents will be checked:

- International Competitor's Licence;
- International Drivers' Licences;
- driving licences of both Drivers;
- car registration papers;
- car insurance papers;
- authorisations to compete abroad for Competitor and Drivers with Licences issued by another ASN than the organising ASN;

10.1.2 - Any team taking part in the Rally, must arrive at scrutineering with a representative of the crew and car in accordance with the published timetable. Any car reporting to the scrutineering area outside the prescribed time limits will not be allowed to start, except in the case of «force majeure» duly recognised as such by the stewards. The crew must present the FIA HTP to the FIA eligibility delegate who may keep it until the end of the event. If this is not submitted, the car may not start.

10.1.3 - The scrutineering carried out before the start will be of a completely general nature (checking, make and model of the car, apparent conformity of the car with its HTP, essential safety items, conformity of the car with the National Highway Code, etc.). This shall be followed by:

- identification of the vehicle, the chassis and cylinder block of which may be «marked», at the organiser's discretion. The following documents will be checked:

- FIA HTP for the car, in compliance with Article 2 of Appendix K;
- This HTP will be retained for the duration of the event.

10.1.4 - To be allowed to start, all cars must be equipped with extinguisher(s) according to Article 5.7.1 of Appendix K.

10.1.5 - No car will be allowed to start unless it complies with the FIA safety regulations. At any time during the event, additional checks may be carried out regarding the crew or the vehicle.

The competitor is responsible for the technical conformity of his car throughout the entire duration of the Rally, under penalty of disqualification.

10.1.6 - Should identification marks (start number, rally plates) be affixed, it is the responsibility of the crew alone to see that these are protected until the end of the Rally. If they are missing, a report will be made to the stewards who may apply a penalty, up to a disqualification from the Competition.

10.1.7 - Any fraud discovered, and in particular showing as intact identification marks which have been altered, will result in the disqualification of the crew from the Competition, as well as any Competitor or crew who has helped or been involved in carrying out the infringement. This will not prejudice the fact that the National Sporting Authority (ASN), to which Competitor or accomplice belongs, may be asked to impose heavier sanctions.

10.1.8 - All Drivers' safety equipment (including helmets, overalls, gloves, underwear, harnesses, FHR systems where required,...) will be checked for compliance with Appendix K and relevant bulletins.

10.2 - Final control

10.2.1 - As soon as each crew reaches the finish, they shall drive their car to the Parc Fermé. A check shall be made to verify:

- its conformity with the car submitted at initial scrutineering,
- if there is any reason to impose any of the penalties specified under Article 8.2.

10.2.2 - The absence of any of the identification marks, as per Article 10.1.5, shall result in disqualification from the Competition.

10.2.3 - Without it being compulsory, scrutineering involving the dismantling of the vehicles may be carried out at the absolute discretion of the stewards ex-officio or following a protest or upon the decision of the clerk of the course. If this dismantling does not follow a protest, the Competitor will have to pay the reasonable expenses which exercise of the powers mentioned herein may entail. In case of dismantling following a protest, Article 11 of these Regulations will apply.

10.2.4 - See Article 11.

10.2.5 - Those vehicles which are to be subjected to final scrutineering, as ordered by the stewards, should be announced by a notice at the entrance to the Parc Fermé.

10.2.6 - A car not conforming to Appendix K and/or its HTP may be disqualified from the Competition.

10.2.7 - The HTP will be returned to the Competitor at the Parc Fermé and at the latest after the final control.

11 - PROTESTS - APPEALS

11.1 - Protest fee: **€1000**.

11.2 - International appeal fee (FIA): **€3000**.

11.3 - Any protest must be lodged in accordance with the prescriptions of the Code. Protests must be made in writing and given to the clerk of the course or to his assistant, or in their absence to a steward, accompanied by the requisite protest fees.

If the protest requires the dismantling and re-assembly of various parts of a car, the claimant must also pay a deposit which shall be set by the stewards.

11.4 - The International Court of Appeal will hear, in the context of a Competition forming part of an FIA Championship (which includes the FIA European Historic Sporting Rally Championship), appeals against decisions of the stewards of a Competition brought by organisers, Competitors, Drivers or other licence-holders that are addressees of such decisions or that are individually affected by such decisions. In this case, the ASNs cannot refuse to give their assistance and agreement (Article 14.1.1 of the Judicial and Disciplinary Rules of the FIA).

12 - FINAL RESULTS

12.1 - Penalties shall be expressed in hours, minutes and seconds. The final results shall be determined by adding the times obtained in the special stages and the penalties incurred during the road sections and any other penalties expressed in time. The crew with the lowest total shall be proclaimed the overall winner, the next lowest second and so on. The period and class results shall be determined on the same basis. To be classified for the Rally, the car has to pass the last time control of the Competition (location: *Lahti harbour*).

12.2 - In the event of a dead heat, the competitor who accomplished the best time for the first special stage will be proclaimed the winner. If this is not sufficient to be able to decide between the competitors, the times of the 2nd, 3rd, 4th and 5th special stages shall be taken into consideration.

12.3 - An independent general final result and class final result will be issued for each category of eligible cars.

12.4 - The results shall be posted in accordance with the programme of the Rally.

12.5 - The final result can be protested until 30 minutes after the results are posted and approval by the panel of stewards. However, a provisional result will be issued at the end of the 1st leg to establish the starting order of the 2nd leg.

12.6 - No team cups will be awarded.

12.7 - A separate classification will be posted for the crews registered in the FIA Championship for the Categories 1, 2, 3 and 4.

13 - PRIZES - CUPS

Prizes will be awarded according to the final results of the Rally.

The following cups will be awarded as a minimum to both Driver and Co-driver:

- Winners in each category.
- Winners in each class.

Where there are three or more classified in either category or class, awards for 2nd place will be given.

Where there are six or more classified in either category or class, awards for 3rd place will be given.

The organisers may increase the above awards according to participation.

14 - PRIZE-GIVING

The prize-giving will take place on

Date:	Sat 10 th of Aug 2019
Place:	Lahti Harbour, podium ramp
Time:	17:00

All the members of the crew must be present at the prize-giving. Crews who are not present at the prize-giving may forfeit their prizes; however, the final results will not be modified.
